## What is TAC? Why is it important?

TAC stands for Teacher Advisory Council. The council is made up of the teachers of the year from each school.

TAC is important because it allows a voice from each school to meet, share concerns, come up with solutions, and advocate for making BCS the best place to learn and grow for students and educators.

TAC collaborates with the cabinet, the BOE, and plans to network and build community partnerships within Brunswick and neighboring counties.
