	b. In consideration of new school openings and consolidations, the JROTC Director will consider:
	(1) Opening new schools,
	(2) Consolidation of schools,

 requirements of this regulation, and other applicable regulations.

- 265 (7) Fair and equitable distribution of units throughout the nation.
- 266

267 **3-4. Application Process (DA Forms 3126 and 3126-1)**

268 a. A school desiring to establish a JROTC unit must complete DA Form 3126 269 (Application and Contract for Establishment of a Junior Reserve Officers' Training Corps. Unit), (https://armypubs.army.mil/ProductMaps/PubForm/DAForm.aspx) or DA Form 270 271 3126-1 (Application and Agreement for Establishment of a National Defense Cadet 272 Corps Unit), (https://armypubs.army.mil/ProductMaps/PubForm/DAForm.aspx) and submit the application through the respective Brigade to the JROTC Directorate. 273 Applications will contain the date the school desires to begin course instruction, any 274 275 former participation in JROTC, and a statement if there is an application for JROTC with 276 another service. 277 278 b. Once JROTC Directorate receives an application from an educational institution to 279 host a JROTC unit, Training and Operations Division will log in the application and 280 check it for correctness and completeness.

281

c. JROTC Directorate will evaluate the application and place the school on the Order of Merit list (OML), if applicable (see paragraph 3-5).

d. As part of the application process, a USACC representative will conduct a site
survey using DA Form 7410, Evaluation Worksheet, Potential Army JROTC Unit,
(<u>https://armypubs.army.mil/ProductMaps/PubForm/DAForm.aspx</u>) after the school has
been approved for a JROTC unit.

e. Commander, USACC, or designee is the approving authority for establishing a
JROTC unit unless otherwise delegated by higher. Once a unit is approved for
establishment, JROTC Directorate assigns a unit identification code (UIC) and request
district identification (district ID). Once JROTC Directorate receives acceptance letter
from school, JROTC Directorate will request DA General Orders.

f. DA General Orders will announce establishment of a JROTC unit. The Secretary of
 the Army or designee will countersign applications of selected schools and furnish
 copies to JROTC Directorate. JROTC Directorate will furnish DA General Order copies
 to the respective Brigade.

300 **3-5. USACC Command Order of Merit List for JROTC Units**

a. To sustain a fair and equitable rank ordering of schools requesting a JROTC unit,
 JROTC Directorate will employ a criteria-based process to generate an Order of Merit
 List (OML). Brigades will revalidate their portion of the OML annually, by confirming the
 school's interest in remaining on the OML and their ability to accept a program if
 offered. Brigades will submit this update at the end of each school year.

306 307

308

(1) The Evaluation Process:

(a) The application then undergoes evaluation through an OML process to provide
 a numerical value to the application. Then JROTC Directorate will generate an
 acceptance letter and send it to the applicant school and the responsible Brigade
 confirming receipt of the application and being placed on the OML.

(b) The OML process employs a set of "needs-based" criteria to include the
school's Title 1 eligibility, indicators of need, enrollment, willingness to offer other
academic credit for JROTC, financial solvency, and facilities dedicated to JROTC.
Additionally, JROTC Directorate will credit locations undersubscribed for JROTC under
the category of fair and equitable distribution. Additional criteria may be added at
discretion of CG, USACC or higher.

320

(c) Upon receiving a numerical value, the application then receives rank order
placement on the OML. The duration of time an application waits on the OML for the
establishment of a program varies based on funding and availability of slots for new
units. USACC is limited with JROTC programs based on congressional mandates and
funding restrictions. However, there is no limit to the number of NDCC programs
authorized, since the school system where they reside provides funding.

(d) Once on the OML, the Commanding General, USACC may award additional
 points for schools on the OML based on extraordinary circumstances in conjunction with
 TRADOC Headquarters and DA.

331 332

333

(2) The Acceptance Process:

(a) As new slots become available, JROTC Directorate will provide an offer letter
 to the next school(s) on the OML. The JROTC Directorate transmits the offer letter to
 the Brigade JROTC Chief for presentation to the school and for direct coordination with
 the school POC.

(b) The school will have thirty (30) calendar days to respond to the offer letter. If a
school declines the offer or fails to respond to the offer letter, the offer letter is
withdrawn and the next school on the OML is offered a program. During the next annual
OML scrub, the school may receive an offer for a program again. If the school declines
the offer a second time, the school is stricken from the OML. If a school is stricken from
the OML, the school must submit a new application to be placed on the OML again.

345

346 **3-6. Instructions for Establishing a New JROTC Unit**

a. When a school accepts an offer for a JROTC Program, the Brigade will validate
 DA Form 3126 and conduct site survey with DA Form 7410. Brigades will provide direct
 coordination and assistance to hire qualified JROTC instructors, establish property
 accountability, and provide other assistance as required to establish the program.

b. Bonding/Insuring government property. The Director, JROTC, will review the site survey and attach the application and other documents to the file. The Director, JROTC, will determine if the new host school will fall under a DAI or considered a single entity for bonding and insurance purposes.

(1) Safeguarding and caring for government property (by surety bond or
insurance) is listed as a school responsibility on DA Form 3126. A surety
bond/insurance certificate must be in place before issuing any government property.

(2) The superintendent, principal, or a designated representative must sign the DA
Form 3126 or 3126-1 and represent the school in all matters pertaining to the JROTC
Program; this includes obtaining and maintaining bond or insurance coverage. The
superintendent, principal or designated representative will select and appoint, by letter,
the Military Property Specialist (MPS)/Primary Hand Receipt Holder (PHRH).

364 c. The school or district will forward the surety bond or insurance document, along 365 with the application/contract through Brigade, to the Director, JROTC, ATTN: ATCC-JRT. The Director, JROTC, will compile the complete packet, and forward the 366 367 application with attachments to Command Judge Advocate (CJA) for legal review. After approval by the CJA, the Director, JROTC will forward the application and site survey 368 369 through Commander, USACC, to the Department of the Army (DA) for signature and 370 issuance of a general order establishing units. General orders normally take 90 days to 371 process.

372 d. The Director, JROTC, will notify the appropriate Brigade when the new unit is 373 authorized to begin operation. The school's superintendent or principal must finalize the 374 hiring of at least one of the JROTC instructor within 90 days of the unit opening, and ensure that the required surety bond/insurance, as well as the appointed MPS/PHRH, 375 376 are in place before government provides funding and equipment. USACC will furnish 377 the UIC and DoDAAC to allow the newly appointed MPS/PHRH to requisition 378 government property. The Brigade representative assisting the new unit will ensure the 379 appointed MPS/PHRH has submitted supply requisitions to outfit the unit and, if 380 applicable, contacted the Brigade.

381 e. Each JROTC unit must account for all government property upon receipt. Every 382 unit issued a Primary Hand Receipt (PHR) from the USACC G4 JROTC Property Book 383 Officer must initiate and maintain a signature card (DA Form 1687). This card 384 authorizes trusted individuals to receive government property deliveries when the 385 appointed PHRH is not present at the school or supply room facility. If the PHRH elects 386 not to appoint someone to act on their behalf, a Memorandum for Record (MFR) is 387 needed to document this non-appointment. Additionally, units must account for all 388 property paid for with appropriated funds on the annual property inventory and annotate 389 it in the unit's property records within 30 working days through the Brigade. A copy of 390 the supporting document will be furnished to the JROTC Property Book Office (PBO) to ensure the unit's PHR is updated accordingly. 391

f. Schools that host a JROTC unit must make available necessary and adequate
classrooms, administrative offices, office equipment, storage space, drill space, and
other required facilities, and must pay the costs of utilities and maintenance. The school
will provide telecommunications, internet connectivity, and pay the costs of installation
and maintenance, including phone calls (local and official long distance).

If a school fails to uphold its contractual obligations, the JROTC unit is placed on 511 probation and notified of the intent to disestablish the program if the requirements are 512 not met within the probationary period as determined by the Brigade Commander. The 513 Brigade Commander will notify the Director, JROTC, that a JROTC program is 514 recommended for disestablishment. school is non-responsive, the Approving Authority may submit a claim to the Surety or
the Insurer for payment pursuant to the process described in the documentation.

of the school official, DAI/SAI, or any member of the unit having knowledge of these
charges, not a party to the violation, to make this report.

d. Any form of hazing, harassment, or bullying by JROTC instructors and Cadets is
strictly prohibited. This could result in probation/decertification for JROTC personnel.
Instructors will disenroll Cadets violating this policy from the program. Instructors and/or
Cadets are not authorized to require Cadets to execute any form of physical punishment
or discipline.

658 **3-15. Instructor/Cadet or Student Fraternization**

659 a. Instructors must neither engage in nor allow fraternization or unprofessional 660 relationships with Cadets. Examples include, but are not limited to: physical contact with 661 a student; socializing in an overly familiar manner such as texting, social networking, 662 tweeting, blogging, etc. Instructors will not allow Cadets to perform personal services (i.e., babysitting, house sitting, pet sitting, yard work, etc.); and counseling or talking to 663 664 Cadets alone behind closed doors is prohibited. This may result in 665 probation/decertification for JROTC personnel. Cadets who violate this policy may be 666 disenrolled from the program. 667

b. JROTC units that maintain an online presence such as Facebook, school
websites, and other electronic media must remember these sites are visible to the
public and open to scrutiny by any person or group. The SAI and AI of a program have
the responsibility to review online sites and remove any material which is unauthorized,
unprofessional, excessively personal, or could otherwise impact good morale and
discipline. Units must adhere to their district policies and procedures when establishing
an online community in support of their unit.

676 **3-16**. Participation in JROTC

643

a. JROTC units will reflect a cross-section (within 10%) of the school's population.
Administrators and counselors must work closely with JROTC instructors to ensure the
students enrolled represent the diversity of the school enrollment to maintain the
balance required for an effective program (e.g. under normal circumstances there
should not be more special needs students or students with disciplinary problems in
JROTC than exist in the overall school population). College bound students should also
have ample opportunity to participate in JROTC. Ideally the program will have a balance

684 of ethnicity, gender, and race, though programs need not stay within 10% of the school's population in each area. However, if the unit has an obvious imbalance in any 685 area, administrators, counselors, and JROTC instructors must make a conscious effort 686 687 to determine the reason and to correct it.

688

689 b. Instructors will confer with school authorities prior to instituting major changes that 690 will have an impact on the goals and objectives of the district/school.

691

692 3-17. Cadet Opening Enrollment Report

693 Refer to paragraph 2-2a(2).

694

695 3-18. Cadet/Student Administration

696 a. JROTC units are comprised of two or more companies, to include a battalion 697 headquarters commanded by the highest ranking Cadet in the battalion. Programs with over 200 Cadets may be organized into a Brigade or Task Force structure, with multiple 698 699 battalions, in order to increase the number of leadership and staff positions. The organizational structure will have a clearly defined chain of command that includes 700 701 officers and enlisted Cadets. At no time will the unit be solely comprised of officers or 702 enlisted Cadets. It must include the basic command and staff functions of a battalion 703 organization and follow American military traditions, customs, and courtesies. 704

- 705 b. Cadets will contribute to the operations of the unit. They will have the opportunity 706 to express their ideas concerning conduct of classes, grades, and discipline of Cadets.
- 707

708 3-19. Association of Military Colleges and Schools of the United States 709 (AMCSUS) Member Schools

710 a. Military Junior Colleges/Secondary Schools and Military Institutes (Preparatory 711 Schools) that maintain JROTC units are members of the Association of Military Colleges 712 and Schools of the United States (AMCSUS). These types of JROTC units are in 713 boarding schools that operate year-round as most students reside on campus for the 714 entire school year (August-June). Many of these institutions are more than 100 years 715 old and provide a unique educational experience for Cadets by reinforcing the JROTC 716 Leadership and Education Training program on a 24-hour, 7 day a week basis. 717 718 b. Given the fact that the preponderance of their students are in residence, they are

719 able to augment the JROTC curriculum, by teaching a significant number of hours/subjects above and beyond those required. The curriculum enables these schools 720 to offer a unique time tested educational product to highly gualified candidates for both 721 722 the nation's service academies and ROTC programs. Because of the unique features of 723 these programs, member units are authorized the following exceptions to policy in 724 running their programs as described elsewhere in this regulation:

- (1) Relief from the requirement of sending 10% of Cadets to JCLC. A minimum of 726 10 Cadets will attend; however, more may participate with the concurrence of the 727 728 responsible Brigade Commander. Cadets may attend Academy sponsored summer 729 JROTC courses without the presence of their SAI or AI.
- 730 731

(2) Member schools may elect to use the below listed table of authorizations.

- 733 (a) Authorizations:
- 734 735 1 to 150 students: 1 SAI and 2 AI
- 736 151 to 250 students: 1 SAI and 3 AI
- 737 251 to 350 students: 1 SAI and 4 AI
- 738 351 to 450 students: 1 SAI and 5 AI
- Additional SAIs and AIs may be authorized in Cadet ratio of 500:1 for 739
- 740 SAIs and 100:1 for AIs.
- 741

742

743

(b) Funding for the additional authorized instructor must come from outside of JROTC. 744

745 (3) Authorization to approve equivalency credit for the JROTC curriculum for any course in the institution's college prep curriculum for which the student receives credit 746 747 toward graduation. Schools will follow the Curriculum Guide in determining whether or 748 not equivalency credit can be authorized by the school administration. To the extent that equivalency credit is authorized, schools will, with concurrence in writing from their 749 750 Brigade Headquarters, select replacement subjects from the Table of Electives found in 751 the referenced document.

752

753 (4) The Senior Army Instructor and/or Army Instructors may support the School's 754 Residential Life Program. The scope of that support is determined by direct negotiation between the Commandant of Cadets and Army Instructors, and is approved by the 755 President and designated Brigade representative. The scope of that support will not 756 757 detract from the accomplishment of the Detachment's JROTC mission. 758

759 (5) USACC will resource current field uniform for schools that use "Cadet-style" 760 uniforms, depending on the availability of funds and only to the extent the price does not exceed what it would cost to provide uniforms to Cadets to conduct certain program-761 762 related training for which their own "Cadet-style" uniforms are not appropriate. 763

764 (6) Authorization for any AMCSUS member school founded prior to the establishment of Cadet Command (September 1986) to continue to wear "Cadet Style" 765 uniforms in lieu of the standard U.S. Army Class "B" uniform prescribed in paragraph 8-766 3. Any school founded after that date must comply with the provisions of paragraph 8-3b 767 768 (2) with respect to obtaining authorization from Cadet Command for the wear of such 769 uniforms.

771 3-20. Satellite Schools

772 Sections 2031 and 2032 of Title 10, U.S.C., continue to tie a JROTC unit to a single 773 educational institution. Therefore, there are only a few limited opportunities to authorize 774 JROTC instructors from one educational institution to travel to other educational 775 institutions that do not offer JROTC, to teach JROTC to students at non-host 776 institutions. Instructors may travel to non-host institutions if students are displaced from 777 the educational institution offering JROTC during the school year due to school closings 778 or consolidations for a limited period of time. All requests of this nature must be 779 approved by the Director, JROTC. 780

781 3-21. Feeder Schools

782 Schools without a host JROTC program, which establish a formal agreement for 783 participation with a JROTC host program school are considered feeder schools. For 784 example, Career Tech Centers may be granted an Exception to Policy on case-by-case basis to teach as a feeder school. Instructors will not be required to teach any students 785

- 786 below the eighth grade as a daily function of their duties and responsibility.
- 787

788 3-22. Cross-Enrollment

789 Cross-enrollment is the population of Cadets who are enrolled in a school other than a 790 Feeder school and does not have a host JROTC program.

791

792 3-23. Adopt-a-School Program

793 a. Many elementary and middle school administrators have recognized the 794 effectiveness of JROTC. With the permission and support of the school administration, 795 instructors are encouraged to adopt an elementary or middle school within their district. 796 This may qualify as an annual service-learning project, using Winning Colors, Junior 797 Achievement, or other methods suitable for elementary school students. Instructors 798 may:

- 799
- 800 801

(1) Serve as a consultant and/or adviser.

802 (2) Train and educate JROTC Cadets to act as mentors, tutors, drill instructors, etc.

- 803
- 804 805
- 806

(3) Use resource curriculum materials provided by the Army.

807 b. Members of JROTC will not provide resources such as uniforms or uniform items 808 to elementary or middle school students, except JROTC Cadets in eighth grade. 809 Instructor time devoted to elementary and middle schools support (Adopt-a-School 810 Program) must never be so extensive as to interfere with primary JROTC duties and 811 quality of instruction at the host school.

813 814 815	c. While Title 10 allows JROTC Cadets to wear official military uniforms, this exception does not extend to Middle and Junior High students below eighth grade.
816	3-24. Disenrollment
817 818 819	a. All Cadet disenrollments require school administration approval. SAIs will consider disenrollment in the following situations when a Cadet:
820 821	(1) Withdraws from school.
822 823 824	(2) Demonstrates a lack of desire for citizenship and leadership training indicated by an unwillingness to participate in instruction or follow procedures. Examples include:
825 826	(a) Frequent absences or persistent tardiness from class or drill.
827 828 829	(b) Accumulation of a large number of demerits or other documented measurements.
830 831	(c) An established pattern of shirking responsibility or other similar acts.
832 833	(d) Refuses to wear the required uniform IAW school/district policy.
834 835 836	(3) Fails to keep an acceptable standard of academic achievement, conduct, appearance, or attendance.
837 838	(4) Exhibits undesirable character traits, such as:
839 840	(a) Lying, cheating, stealing or hazing.
841 842	(b) Unauthorized possession or use of illegal drugs or substances.
843 844 845 846 847 848 849 850	(c) Conviction or adjudication as a juvenile offender for committing an offense that could lead to imprisonment.
	(d) Frequent incidents of a discreditable nature with civil or school authorities or other similar acts.
	(5) Fails to maintain the requirement for enrollment IAW paragraph 7-2.
851 852	(6) Exhibits continued disruptive behavior.
853 854 855	b. The SAI or AI must document any offenses via written counseling. Written documentation is essential prior to disenrolling a Cadet from the JROTC Program.

856 **3-25. School Support**

857 a. The school should promote the success of JROTC and support JROTC community 858 activities. Examples of this include, but are not restricted to, promoting partnerships with 859 support organizations (such as the Veterans of Foreign Wars [VFW], American Legion, 860 Military Order of World Wars [MOWW], etc.), scholarship and grant requests for 861 JROTC, co-curricular activities, advocating for credit other than elective, (i.e. CTE 862 credit, Civics credit, Health credit, History credit, PE credit, CERT credit, etc.); 863 supporting Junior Achievement partnerships and supporting college credit for JROTC 864 instruction. 865

b. To ensure a dynamic, integrated program, the school must provide transportation
to JROTC activities equitably with other academic and co-curricular activities.

c. Schools should provide medical and liability insurance for JROTC Cadets while
Cadets participate in co-curricular activities as it does for other students in the school.
Some examples are JCLC, adventure training, drill and marksmanship competitions,
and similar activities, all of which are school-sponsored activities.

873

874 **3-26.** Liaison Program

a. Brigades will develop a liaison program to State Departments of Education in order
to address any issues or benefits at JROTC schools. At a minimum, the program must
address:

- (1) The loss of all assigned JROTC instructors at a school.
- 879 880 881

882

(2) The activation of new JROTC and NDCC programs.

b. The program should entail the use of experienced instructors from nearby schools,
the employment of Brigade-level personnel to assist the affected school, or any other
method which provides assistance to new instructors. Regardless of method employed,
Brigades will ensure these schools receive the resources necessary to sustain program
success, or to lay the foundation for a new program at the school.

(1) At a minimum, the new instructors must develop a working knowledge of
 Curriculum Manager, JROTC Unit Management System, JROTC Command Information
 Management System, and district policies and procedures.

(2) Brigades will coordinate with USACC JROTC to obtain a UIC.

894
895 (3) Brigades will coordinate with the USACC G4, JROTC PBO to establish a
896 DoDAAC, and to obtain a copy of the units PHR.

897

893

898 (4) Brigades will coordinate for initial funding to get needed supplies and uniforms899 in place.

901 3-27. Program Transfers and Re-flagging

902 To support district efforts to relocate programs rather than request closure of an existing 903 program and concurrent establishment of a new program, a district may request transfer 904 of an existing program from one school to another within their district, if recommended 905 by the DAI/SAI and Superintendent. The district will complete a DA Form 918B and 906 submit it through the DAI/SAI to the Brigade. The Brigade will forward the request to the 907 JROTC Director with recommendation for approval or non-concurrence and reasons. If 908 approved, Brigades will submit a DoDAAC realignment and/or deactivation request to 909 the USACC G4, PGRT. All equipment and supplies will also be coordinated for transfer 910 under the supervision of the DAI/SAI.

911

919 920

921

923

930

931

934

936

912 3-28. Sponsorship Program

- a. Brigades at a minimum will maintain a sponsorship program to address experienceshortfalls at JROTC units, when the program:
- 915916 (1) Gains a new JROTC instructor.917
- 918 (2) Loses all JROTC instructors.
 - (3) Is being established or disestablished.
- 922 b. The sponsorship program should utilize:
- 924 (1) Experienced instructors to provide one-on-one mentorship and guidance to
 925 new instructors at a minimum for the first quarter following their official date of hire.
 926
- 927 (2) Brigade-level personnel to assist schools going through the establishment or
 928 disestablishment process.
 929
 - c. Brigades will ensure new instructors:
- 932 (1) Develop a working knowledge of Curriculum Manager, JROTC Unit
 933 Management System (JUMS), and district policies and procedures.
- 935 (2) Are provided the current UIC, DoDAAC, and hand receipts.
- 937 (3) Coordinate for initial funding to get needed supplies and uniforms in place.
- 938
- 939 Chapter 4 Unit Resources
- 940 **4-1. Scope**

941 This chapter provides guidance on control/use and safeguarding of funds, supplies,

942 equipment, and services.

944 4-2. Government Purchase Card (GPC)

945 a. JROTC certified, cost-shared instructors are authorized to be cardholders and 946 billing officials. The cardholder is the individual within the unit to whom a card is issued 947 and procurement authority is delegated. The GPC bears the cardholder's name and 948 may be used by this individual alone to only pay for authorized purchases. This card is 949 not transferable. A cardholder cannot be a billing official for their card. The billing 950 official is the individual in the unit who will serve as liaison with the Dispute Office, 951 Finance and Agency Program Coordinator contacts. The billing official should be the 952 cardholder's JROTC supervisor or someone in the JROTC chain of command. All 953 cardholders and billing officials must receive initial and refresher training from their 954 support installation which issued the cards.

955

b. The single maximum purchase limit (supply items) and single purchase limits for
services (i.e., rentals and repairs) for each cardholder are set by the
Agency/Organization Program Coordinator. The 30-day cardholder limit is a budgetary
limit established by the supporting budget office. Brigade will ensure schools do not
exceed their annual budget.

962 c. Mandatory OMA and MPA items: Office supplies and clothing items are ordered 963 from the JROTC PBO, USACC G4, in the Global Combat Support System – Army 964 (GCSS-A). The GPC is not authorized for use in FEDMALL (Exception: Units located in 965 an overseas location or who have access to an installation supply store). Other 966 mandatory supply sources include AbilityOne, Government Service Agreement or any of 967 the companies have a contract with GSA and are clearly marked as mandatory items in 968 the catalog from: National Industries for the Blind (NIB) or National Industries for the 969 Severely Handicapped (NISH) or Federal Prison Industries (UNICOR). 970

- 971 d. Use of the card must meet the following conditions:
- 972
 973 (1) A USACC Form 112 is used to request procurement of non-standard items in
 974 the GPC process. All requests are routed to the USACC G4, JROTC PBO to determine
 975 the Accounting Requirements Code (ARC) for the request. When an item is assigned an
 976 ARC of N (non-expendable) for formal accountability, the item is posted to property
 977 accountability records with a DD Form 250.
- 978

(2) Items such as tools, hammers, pliers etc. are assigned an ARC of D (Durable).
These items will not be added to the property book, but must be secured and controlled.
The unit will account for these items at the unit level manually with use of a DA Form
2062 (hand receipt).

983

(3) Any non-expendable item to be purchased must be authorized by the
 CTA/BOI, TDA or an Exception to Policy Letter. A request for an Exception to Policy
 Letter must be obtained from Cadet Command through Brigade prior to purchase. All

- 987 purchases utilizing government funds require prior purchase authorization. Payment for
 988 items purchased without authorization will become the responsibility of the purchaser,
 989 school, or Brigade.
 990
- 991 (4) Purchase must be in compliance with all applicable USACC policies,
 992 procedures, and the current version of the Army GPC Operating Procedures.
 993
- (5) All items purchased will normally be available or delivered within the 30-day
 billing cycle.
- (6) It is the cardholder's responsibility to ensure that the card is not charged until
 service/supply is performed.
- e. The cardholder is responsible for safeguarding the credit card and account number
 at all times. The cardholder must not allow anyone to use his/her card or account
 numbers. Failure to safeguard the credit card and account number may result in the
 card being suspended and decertification could result.
- f. Cardholders and billing officials who make or approve unauthorized purchases or
 carelessly use the card may be liable for the total dollar amount of the unauthorized
 purchases, as well as disciplinary action. In each case, cardholders and/or billing
 officials may lose GPC privileges.
- g. Cardholders are to cease all expenditures by the 19th of each month. They are to
 use this time to review logs and complete required steps to certify their account in the
 Access Online. Cardholder Accounts must be certified within three business days
 starting on the 20th of the month. Billing officials will then review purchases and certify
 their account in Access Online within five business days. After accounts are certified,
 expenditures can commence in the next billing cycle.
- h. Brigades review GPC accounts before they become 30 days delinquent will be
 reviewed by the supporting installation that issued the card. The card issuing agency will
 provide USACC G4/G8 and each Brigade a list of these accounts.
- i. The Agency Program Coordinator (APC) may permanently close accounts if more
 than two suspensions occur within a twelve month period. Brigades must request
 reinstatement of closed accounts from the support installation that issued the card.
- j. Give prompt notification to the APC when a card is improperly used, lost, or stolen.
 Cardholders and billing officials must notify the APC if they are no longer employed as a
 JROTC instructor or MPS.
- 1028
- k. Items that are purchased with the GPC, a contract, or on an Information
 Technology Equipment, Products, and Services (ITEPS) request, require a completed
 Material Inspection and Receiving Report (DD Form 250). Per ALARACT, 092/2013 –

1032 HQDA Update to Policy AR 710-2: Active Army Units are allotted seven calendar days, 1033 from the date of receipt to post items onto the property book.

1034

1035 4-3. Ordering Supplies and Clothing

a. Requisitions for supplies and clothing items are ordered by the USACC G4, PGRT.
The process supports all Brigade JROTC requisitions in GCSS-A. The process includes
the following:

1039 1040

1041

1046

1047

1049 1050

1051

(1) JROTC programs identify items to be ordered on an ordering spreadsheet.

1042 (2) Brigades designate an S4 JROTC representative to validate orders placed in
1043 GCSS-A. An authorized representative is assigned on a DA Form 1687 signed by the
1044 Brigade Commander.
1045

- (3) Brigades validate orders and determine funding availability.
- 1048 (4) Brigades submit orders to the USACC G4, PGRT for processing in GCSS-A.
 - (5) USACC G4, PGRT informs the Brigade once orders are processed.
- 1052 (6) USACC G4, PGRT provides the Brigade an open requisition report twice a 1053 month for status updates on open orders.

b. Special Measurement Orders (Uniforms): All requests are processed through the
USACC G4, PGRT. Requests are completed on a DD Form 358 (Special Sized Clothing
for Men) or a DD Form 1111 (Special Sized Clothing for Women). These are the only
request items processed through FEDMALL. The PGRT notifies the ordering program
and Brigade once the request is placed on order.

1060

1061 4-4. Authorized JROTC Expenditures

a. This paragraph provides general funding guidance for JROTC. Specific guidance
will be provided annually. Requirements will be funded within the current fiscal year
budget as funding allows.

b. The following activities are considered authorized/reimbursable travel for JROTC
instructors. If Brigade has endorsed these types of travel requests, they will be
processed at USACC as expeditiously as possible, provided funding is available. All
requests should be provided via e-mail 30 days before a planned event.

1070 1071

1072

- (1) Attending JROTC resident courses.
- 1073 (2) Attending an annual Brigade instructor training.
- 1074 1075
- (3) Participating in installation coordination prior to executing JCLC.

(4) Visiting the support installation a maximum of two (2) times per year to receive 1078 or turn in property, reconcile property books (hand receipts), etc. 1079 1080 (5) Instructor travel in support of the Unit Report is based upon availability of 1081 funds. 1082 1083 (6) Other travel as directed by USACC. 1084 1085 (7) DAI/MPS: total of two visits per school per year. 1086 1087 c. Although the following are authorized expenditures in support of JROTC, due to 1088 funding constraints, they may not be fully funded by the Army: DAI travel to subordinate 1089 schools; team participation in local co-curricular activities; judges for competitions; or 1090 other JCLC events not prescribed in this regulation. Schools/districts should provide 1091 funding support at least equivalent to what is provided at other departments. 1092 1093 d. Printing/reproduction: The unit-funding template provides funding for copying/copy 1094 machine maintenance. Units should enlist the aid of their schools to ensure that 1095 adequate curriculum is reproduced for each Cadet. Reproduction of training material is 1096 a shared responsibility between the school and USACC. 1097 1098 e. Postage: Postage requirements at the unit level should be minimal. The instructor who is authorized to use the GPC may use the U.S. Postal Service to sparingly charge 1099 1100 stamps. Units without a GPC will contact their Brigade who will request postal support 1101 from the Supporting Installation. Brigades will use MIPR or Brigade GPC to fund this 1102 requirement. 1103 1104 f. Automation: Automation equipment is provided to JROTC units through initial push 1105 package, life cycle management, and Information Technology Equipment, Products, 1106 and Services (ITEPS). Units are not authorized to purchase automation equipment with unit funds as it is provided by USACC through direct distribution channels. Units must 1107 1108 report status of automation equipment. Failure to comply may result in delay of 1109 receiving life cycle replacements. 1110 1111 g. ITEPS is the process used by the Army JROTC Brigades to purchase and replace 1112 inoperable automation equipment for their units as follows: 1113 1114 (1) Units identify requirement: The JROTC Brigades review and recommend to the 1115 Administrative Contract Review Board (ACRB) the request for purchasing of mission 1116 critical classroom automation equipment. 1117 1118 (2) Develop ITEPS request using USACC Form 112, Fort Knox Form 5130, and 1119 requesting guotes through the Computer Hardware Enterprise Sofware and Solutions 1120 (CHESS) IT E-mart system or outside vendors. 1121

1076 1077

- (3) ITEPS request is approved by respective Brigade Commander and thenforwarded to USACC for review and approval.
- 1124

(4) JROTC Directorate and respective JROTC Brigade monitor ITEPS requests
until completion. A copy of the ITEPS request is also forwarded to the USACC G4,
JROTC PBO for determination of the ARC. The ARC distinguishes accountability for the
equipment on the property book or unit level.

1129

1130 h. Common Table of Allowances (CTA 50-900, CTA 50-909, and CTA 50-970). This 1131 CTA, together with CTA 8-100, constitutes the only Department of the Army 1132 authorization document for individual and organizational clothing and equipment. These 1133 documents provide a listing of authorized items for JROTC units and Basis of Issue 1134 (BOI) for each item. They also provide the funding allocation used for each item. Units/DAIs desiring changes/additions to the CTA and TDA equipment must submit 1135 them to Brigade. Operations and Maintenance Army (OMA) funds budgeted for JROTC 1136 units may not be used to support DAI operations without Brigade Commander approval. 1137 1138 For more information, see https://www.usarmyjrotc.com/library.

1139
1140 (1) The purpose of the Common Table of Allowances (CTA) is to provide an
authorization document according to the provisions of AR 71-32 and AR 700-84.
Allowances of individual and organizational clothing and equipment identified within this
document are authorized for procurement with appropriated funds.

(2) The Basis of Issue (BOI) is the authority that prescribes the number of items to
be issued to an individual, a unit, a military organization, or for a unit piece of equipment
(e.g. 1 each (ea) Cadet, 1 box (bx) per unit).

(3) The JROTC Directorate participates in the CTA revision workshop as required
to provide input regarding the CTA and BOI for JROTC Cadet's individual and
organizational clothing and equipment.

i. JROTC Cadet Leadership Challenge (JCLC).

(1) Command guidance for JCLC is to provide an opportunity for a minimum of
 10% of LET 1 - LET 3 to attend, within resource constraints, as long as the Cadet has
 completed a minimum of 50% of the LET 1 curriculum and has not graduated prior to
 the JCLC dates.

1159
1160 (2) Brigade Commander must exercise judgment to determine a safe but
1161 economical Cadet to adult ratio. In most cases, it will be between five-to-one and ten-to1162 one.

(3) Transportation requests need to be carefully monitored at the Brigade level.
When possible, consolidate transportation requirements from different schools in the

the Army is GCSS-A. The system conforms to the policy revisions of AR 710-2, AR 7355, DA Pam 710-2-1, and other exisiting supply regulations and directives. All adjustment
actions concerning a unit's PHR are coordinated through the USACC G4, JROTC PBO.

1244 b. School administrators will designate and appoint a MPS/PHRH to requisition, store, issue and account for all government property furnished to the institution for 1245 JROTC activities. At a DAI institution, the MPS/PHRH will be appointed in writing by the 1246 Superintendent of the school district. At a JROTC standalone institution, the 1247 1248 MPS/PHRH will be appointed by the school Principal or similar authority. Brigades are responsible for nominating and selecting 2146 potential interviewers who will assess candidates' competence to execute JROTC's 2147 mission. 2148 2149 b. The Director, JROTC, is responsible for conducting record checks on candidates 2150 and coordinating the training for potential interviewers. 2151 2152 c. Potential interviewers must: 2153 2154 (1) Be willing to accept the responsibilities as a certified interviewer. 2155 2156 (2) Have a minimum of two years' experience as a JROTC instructor. 2157 2158 (3) Be recommended by the Brigade and approved by HQ, JROTC IMD. 2159 2160 (4) Have no adverse or derogatory actions pending to include no adverse written counseling statements. 2161 2162 2163 (5) Have favorable counseling and school evaluations. 2164 2165 (6) Interviewers will meet the medical and fitness standards as prescribed in 2166 Appendix C. 2167 2168 (7) Have completed required instructor training, outlined in this regulation. 2169 2170 (8) Meet the height/weight standards. 2171 2172 d. Personnel at the Brigade must have two years' experience working in JROTC to be nominated as an interviewer and must have attended the JSOCC Basic/Advanced 2173 2174 Course. 2175 2176 e. Once selected, the instructor must complete the Interviewer Online Course. 2177 2178 5-9. Roles of JROTC Instructors 2179 a. JROTC instructors are continuing a path of selfless service to our nation and its 2180 youth. Most find it to be one of the most challenging of all endeavors, but also one of the 2181 most satisfying as they observe, first-hand, the impact they have on Cadets in

2182 motivating and guiding them to achieve their fullest potential in school and in life. This 2183 section provides insights into many roles that you need to know, which are expected of

2184 an instructor to be successful.

2185 2186 (1) You Are A Professional: As a military retiree, with many years of demonstrated leadership, selfless service, integrity, and success, you are a proven professional. Your 2187 2188 school and community will value and expect this of you as a JROTC instructor. Embedded in your professionalism is your ability to follow and enforce a Code of Ethics 2189 and Standards of Conduct, which students, parents, and school administrators will rely 2190 2191 upon every day. Membership in relevant professional organizations is one of the things 2192 that separate a profession from a conventional job. As a teacher, it is important to support local, state, and national educational organizations. Many professional 2193 2194 organizations offer continuing education, seminars, and lectures along with other opportunities for learning. 2195

2196

2197 (2) You Are A Civilian Teacher: Although you are no longer an Army employee, you will find the civilian teaching profession to be similar in many ways to your military 2198 service. You will be required to also follow and enforce a School District Teacher Code 2199 2200 of Ethics and/or Conduct, so make sure you read it and understand it. You will also 2201 have "fiduciary" responsibility of your Cadets, just like you had with your Soldiers. This 2202 means you are "entrusted" by their parents and the state with their proper education, best interests, welfare, and safety, which are legal responsibilities with severe liability 2203 when violated. You will also be a teacher 24/7/365, just as you were a Soldier in military 2204 service. Be aware that you will always be under observation, not only during school 2205 2206 hours, but after school as well, even while dining at restaurants, attending sports events, etc. People in the community will know you, although you may not know them. 2207 2208 NOTE: Although you are a civilian teacher, employed and paid by the school district, your JROTC Certification gives you a unique status. Read below. 2209 2210

2211 (3) You Are A Certified JROTC Instructor: With your JROTC Certification IAW AR 2212 145-2, you officially become designated as a "member of the Armed Forces not on active duty," which provides you with many privileges and authorities, as well as 2213 obligations. You are now allowed to wear the US Army uniform 24/7, when as a retiree 2214 you were limited to only certain ceremonies and events. You are also now authorized to 2215 teach the JROTC curriculum, and utilize US Government information and logistical 2216 2217 systems (e.g. possess a CAC and GPC) to support your JROTC program and its activities. Your JROTC Certification also protects you from being misused to perform 2218 2219 non-JROTC related duties, like teaching other subjects. Note: It does not exempt you 2220 from performing common duties all teachers share in, like lunch room duty or hall monitor, etc. Your JROTC certification also commits you to certain obligations, such as 2221 2222 following Cadet Command regulations, as well as, your School District's policies and 2223 rules, and keeping your brigade chain of command informed. Very importantly, you are 2224 also obligated to abide by all military rank, protocols, customs, and traditions, and accord other JROTC instructors with the military courtesies commensurate with their 2225 2226 rank.

(4) You Are A Representative Of The US Army: With your JROTC Certification,
and wearing the uniform, you represent the US Army to all students, faculty, and to the
community. Most of the general public has limited knowledge or contact with the US

Army, so your actions will have a lasting impact on how the US Army and other military services are viewed and respected. Keep this in mind at all times.

2233

(5) You Are A Role Model: As a JROTC instructor and teacher, you will continue to
be a role model, and not only to your Cadets, but also to other teachers, school
administrators, and students outside the JROTC program. You will find that your vast
experiences in the real world, and your proven abilities to plan, lead, and solve
problems will be highly sought after. You will also be a mentor and a coach to your
Cadets, and in far too many cases, be looked upon by some as a father figure or mother
figure, who have none in their homes.

2241 2242 (6) You Will Take An Active Role On The Faculty: Many teachers and 2243 administrators in your school will not know or understand what you do as a JROTC instructor. Because you are in military uniform, they will assume you are just doing 2244 "military things," and that you are not a "real" teacher instructing a nationally accredited 2245 curriculum. You must actively pursue correcting this misperception. Become an integral 2246 part of your school's faculty, and join key committees like those involving school long-2247 2248 range planning or community outreach, etc. Volunteer to demonstrate to the faculty your JROTC curriculum during a faculty professional development session, which occur 2249 2250 periodically throughout the school year. Once other teachers view the quality of the JROTC curriculum, with its detailed lesson plans and integrated use of electronic media, 2251 2252 they will be astonished, and your credibility as a "real teacher" will be established. Parents often do not understand JROTC either, so volunteer to speak at a PTA Meeting 2253 and/or Student Orientation Night. Also, get to know the members of your School Board, 2254 where key decisions are made. Most members will not know what JROTC does or that 2255 their district even has a JROTC program. An easy way to start this relationship is to 2256 offer your Cadet Color Guard or a Cadet to lead the Pledge of Allegiance at the 2257 2258 beginning of most School Board Meetings. The Board will be appreciative, and its members will start to bond with the JROTC program, and become interested in its 2259 2260 activities, community support, and value. 2261

2262 (7) You Will Be A Coach Of A JROTC Co-Curricular Activity Team(s): An essential element of the JROTC curriculum are its co-curricular activities that help to build Cadet 2263 teamwork, confidence, and leadership. Every JROTC program must have a Color 2264 2265 Guard, a JROTC Leadership and Academics Bowl (JLAB) Team, plus at least one other co-curricular activity, such as a Drill Team, Raider Team, Air-Rifle Team, Robotics 2266 Team, Archery Team, Cybersecurity Team, or Cadet Challenge Team. Most JROTC 2267 2268 programs do all, and compete in local, area, and state level competitions. Every instructor is involved in coaching these teams. In fact, coaching and assisting JROTC 2269 teams are your after school priority, and not the school's sports teams, which a Principal 2270 may ask you to support because of your athletic talent or skills. Be aware that you are 2271 not authorized to coach or assist the school's sports teams or any non-JROTC related 2272 teams, without specific written approval from your brigade, which is rare. 2273 2274

2275 (8) <u>You Will Take An Active Role In The Community</u>: Your involvement in the 2276 community is absolutely essential to supporting and accomplishing the JROTC mission "To motivate young people to be better citizens." In fact, the JROTC program
incorporates community service and service learning into its curriculum at every level,
which is evaluated during accreditation evaluations (JPAs). Reach out to local civicpatriotic and citizenship building organizations and clubs, such as the American Legion,
Veterans of Foreign War, Kiwanis Club, Habitat for Humanity, Food Banks, etc. and get
involved with their activities. Many are also looking for ways to support school programs
and students, like JROTC, with funds and/or awards.

2284

2285 (9) You Should Maintain A Strong Affiliation/Liaison Role With A Senior Army ROTC Program (SROTC): It is important that you have a strong relationship with a 2286 college/university Army SROTC program. Normally, your brigade will have already 2287 2288 affiliated your JROTC program with a specific SROTC program, but if not, reach out and 2289 establish one. Although JROTC is not an Army recruiting tool, the synergy, mutual support, and resources each program can provide each other helps both better 2290 accomplish their mission. Educating JROTC Cadets on the many career opportunities 2291 and pathways in life is an important aspect of JROTC, and this should also include 2292 military service and officer-ship. Get to know the SROTC Professor of Military Science 2293 (PMS), and invite their cadre to visit your high school to present information on 2294 2295 scholarship opportunities (national and campus based level). Intern, arrange for the SROTC program to set-up a campus visit for your JROTC Cadets each year. Also, 2296 coordinate to send selected JROTC Cadets to attend their annual military ball, and 2297 2298 invite the SROTC to send Cadets to your military ball, as well. When requested, most SROTC programs will send their college Cadets as mentors, and as graders at your 2299 local Raider or Drill Meets, so take advantage of this. The closeness of their ages with 2300 your JROTC Cadets makes a lasting and inspiring impression. 2301

2302

(10) You Should Maintain A Strong and Cordial Relationship With The Local
 Military Recruiters: Serve as the school-district liaison (school representative) to
 coordinate campus access for military recruiters, career days, ASVAB testing, and
 development of local mentoring programs. In-turn, your local military recruiters can also
 be a source of support when conducting JROTC activities and community support.

2309 **5-10. Relationships Between JROTC Personnel (DAI, SAI, AI)**

In order for a JROTC unit to be successful, it must operate and adhere to the rank, courtesies, customs, and traditions of the US Army. All JROTC instructors are obligated to follow this as part of their JROTC certification, which is codified in AR 145-2, where instructors are designated as a "member of the Armed Forces not on active duty." This relationship between instructors is defined below. However, it must be emphasized that all JROTC instructor duties and workload will be distributed equally, regardless of rank.

a. Director of Army Instruction (DAI): When a School District/System has a USACC
approved DAI structure, the DAI is the chief operating officer and administrator of all its
JROTC programs. All JROTC instructors and DAI staff employed by the School
District/System will be directly under the DAI's direct supervision on all matters. The DAI
is the overall leader, and is responsible for the quality of all JROTC classroom

instruction, the proper conduct of all JROTC co-curricular activities, and the professional
development and training of all instructors. See paragraph 5-4 for a detailed list of DAI
functions and responsibilities. In accordance with paragraph 5-22a, DAIs will conduct
initial written performance counseling of all SAIs within the School District/System within
the first 30 days of arrival, and then on a semi-annual basis, usually at the beginning of
each school semester.

2328

2329 b. Senior Army Instructor (SAI): The SAI is the high school's Department Head of the JROTC program and the overall leader of the JROTC unit. The SAI is responsible 2330 for the overall supervision, management, and direction of the JROTC unit, its Army 2331 Instructors (Als), its Cadets, and any school staff assigned to the program. The SAI is 2332 2333 responsible for the quality of all JROTC classroom instruction, the proper and safe 2334 conduct of all JROTC co-curricular activities, and the professional development and training of all instructors and Cadets. See paragraph 5-6 for a detailed list of SAI 2335 functions and responsibilities. In accordance with paragraph 5-22a, SAIs will conduct 2336 initial written performance counseling of all Als within the first 30 days of employment, 2337 and then semi-annually, usually at the beginning of each school semester. 2338 2339

c. Army Instructor (AI): In no instance will an AI be higher in rank than the SAI for that JROTC unit, nor will two instructors of the same rank be permitted to run a JROTC program. Als report to the SAI, who is their supervisor, regardless of years served at a high school or within JROTC. In accordance with paragraph 5-22a, AIs will receive an initial written performance counseling from the SAI within the first 30 days of employment, and then semi-annually, usually at the beginning of each school semester.

2347 **5-11. Relationship Between Instructors and Schools**

2348 a. USACC and school authorities will ensure that personnel assigned or employed as 2349 JROTC instructors are used only for that purpose and assigned duties will be directly 2350 related to the JROTC unit. School authorities will ensure instructors are provided liability insurance while performing JROTC duties, including co-curricular activities. Co-2351 curricular activites to include, but not limited to JROTC Cadet Leadership Challenge 2352 (JCLC), JROTC Leadership and Academic Bowl (JLAB), Raider/adventure training, 2353 STEM, drill and marksmanship competitions, and similar activities, all of which must be 2354 2355 school sponsored. 2356

2357 b. The school or school board is the employing agency of all JROTC personnel. DAI/SAIs, as departmental heads (or equivalent), are responsible to school officials for 2358 conducting JROTC. They must ensure that the unit meets school standards and Army 2359 requirements. Individuals employed by school systems have responsibilities to the 2360 schools as well as to the government. Schools are expected to support JROTC 2361 2362 instructors equally with other department heads and teachers in the school. For example, JROTC instructors must be involved in budget and other school decisions, 2363 included in professional/staff development, offered the same opportunities for teacher of 2364 the year, receive equitable supplemental pay/stipends for co-curricular activities, etc. 2365 2366

c. The school authorities or DAI/SAI/AIs will, within five day, advise the appropriate
Brigade and the Director, JROTC (ATTN: IMD) of any change in the employment status,
e.g., suspension of personnel employed as JROTC instructors IAW Serious Incident
Reports (paragraph 2-3 of this regulation).

2371

2372 (1) Individual, school, and Army. The school and the JROTC instructor will 2373 negotiate contractual matters. Although the Army is not a party to the employment 2374 contract, it will reimburse the school in accordance with AR 145-2. A copy of the contract will be furnished to USACC by school authorities upon request. Though the 2375 2376 Army is restricted by the amount that can be reimbursed to the school, the school is not 2377 restricted. In negotiating the employment contract, schools are encouraged to pay 2378 instructors for their experience, education credentials, and other after school activities 2379 as other teachers. Also, when negotiating the length of the employment contract with a 2380 school, it is the instructor's responsibility to ensure the school official is aware of the requirement for year-round coverage of government equipment. Schools which do not 2381 2382 employ year-round instructor(s) must designate the principal or other school administrator to complete a 100% inventory and sign for all government property. This 2383 ensures accountability for property during the period that an instructor is not on contract 2384 to provide oversight and accountability. Regardless of the length of their contract, 2385 2386 JROTC instructors are required to attend JCLC with their Cadets. If required, contract extensions for JCLC will be restricted to a specific amount of time and will be 2387 2388 considered on a case-by-case basis allowing the Army to cost-share for this period of time. The minimum contract length for JROTC instructors is 10 months. Schools will not 2389 enter into a contract with an uncertified person for the purpose of teaching JROTC. 2390 Applicants must present a qualification letter and be found suitable through a 2391 background investigation prior to conducting negiotations. 2392

2393

2394 (2) Individual and school. Schools/School Districts are ultimately responsible for 2395 ensuring Army JROTC instructors are paid for duties performed. JROTC instructors will 2396 not be expected to perform unpaid non-JROTC additional duties beyond those performed by other teachers. If any additional sum is paid for the services, the Army will 2397 2398 not reimburse the school for these services. These services must be supported by the 2399 DAI/SAI and the affected instructor and approved by the Brigade Commander in writing. Personnel employed to serve as a MPS/Primary Hand Receipt Holder (PHRH) are 2400 2401 required to issue, account for, and maintain all government property. Instructors appointed to these positions act as agents of the school, and will be provided a 2402 minimum of one 45-50 minute class period in addition to their normal planning period for 2403 2404 associated duties.

- 2405
- (3) Temporary absences. Schools must follow their teacher substitution
 procedures for JROTC instructors. If the absence is more than 30 days, the DAI/SAI will
 notify Brigade/USACC.
- (4) To reduce liability to the JROTC program, instructors are prohibited from being
 quartered, housed, or sleeping in the same room with Cadets during JCLCs and other

- 2412 authorized off-campus events. JROTC instructors must have separate sleeping
- 2413 arrangements.
- 2414
- 2415 Section II Instructor Qualification

2525	associated with being a JROTC instructor, and identifies ways to help Cadets apply
2526	classroom learning to practical applications through co-curricular activities. The course

2590	satisfactory interview is a prerequisite for qualification.

(4) Evaluation of applicants. The completed application, together with supporting
documents and the individual's interview results, will be considered in determining an
individual's eligibility and suitability to serve as a JROTC instructor. All applicants will be
informed in writing of the results within 4-6 weeks of receiving a complete application
packet.

2598 5-14. Qualification Procedures

- 2599 2600
- a. Headquarters, USACC (Director, JROTC) will:

(1) Determine the applicant's eligibility, suitability, and qualifications through
 satisfactory interview, physical examination, service record, review of application
 packet, and other materials specified by USACC.

2605 (2) Inform applicants when they have met the qualification requirements for 2606 employment in JROTC. 2607

(3) Inform applicants whose qualifications do not warrant approval that they do not
meet the certification requirements of Title 10, USC, Section 2031 and this regulation.
JROTC initial qualification process is an action similar to a competitive selection board
proceeding. Reasons for failure to qualify may not be provided to the applicant. The
needs of JROTC are the overriding consideration. Applicants not selected may submit
additional information for review and reconsideration within 10 days from the date of the
notification.

b. The instructor's qualification status is valid for three years from the date of
approval letter. Army Instructors (Als) qualified and awaiting a position are encouraged
to complete the minimum education requirements of an associate degree or higher.

- 2620 c. School administrators/DAIs appointed as hiring officials will:
 - (1) Interview only those applicants qualified by USACC.
- 2624 (2) Employ only applicants who are qualified by USACC.
 - (3) Inform USACC of the name, grade, and social security number (last 4 SSN) of those applicants whose qualifications are approved by the school before starting employment.
- 2628 2629

2627

2621 2622

2623

2625 2626

2630 5-15. Continuing Qualifications

- a. Instructors must:
- 2632 2633 (1) Meet the eligibility and gua
 - 2633 (1) Meet the eligibility and qualification standards of paragraph 5-12. Demonstrate 2634 a thorough knowledge of JROTC subjects, effective performance as an instructor, and

- the ability to function well as an instructor in JROTC and within the school system. The
 attainment of the requirements may be reflected in the instructor's school evaluation,
 semi-annual counseling, or other records.
- 2638 2639

2648

- (2) Complete annual training, as directed by USACC or the school.
- (3) Have a bachelor's degree to hold a SAI position. Als must have an associate
 degree, within five years after their initial hiring. Only degrees from an accredited
 college or university recognized by the Department of Education are acceptable to meet
 education requirements. For additional information, go to the Office of Personnel
 Management (OPM) and U.S. Department of Education Web sites at
 <u>http://www.opm.gov/qualifications</u> and
 http://www.ed.gov/admins/finaid/accred/index.html.
- (4) Provide IMD with an updated 4x6 photograph every five years. The photo will
 portray the instructor in current Army Service Uniform with all authorized awards and
 insignia. The name, rank, school name, location, and date of photo must be printed on
 the photo. Undergo background investigation, and submit to subsequent investigations
 every five years to retain position of trust. Dependent upon the investigating agency,
 subsequent fingerprints may not be required.
- (5) Instructor Management may require a physical examination on a command directed basis for extended illnesses. Instructors will provide the results to IMD prior to
 returning to duty for determination of fitness and continued certification.
- 2660 Section III Child Care National Agency Check with Inquiries (CNACI)
- 2661 **5-16. Scope**

2662 a. Childcare National Agency Check with Inquiries (CNACI) Investigation 2663 Department of Defense Instruction (DODI) 1402.5 and Army Directive (AD) 2014-23 2664 issues policy for screening and background check requirements for individuals who have regular contact with children under the age of eighteen years in the execution and 2665 support of Army Programs and activities. Everyone who regularly interacts with children 2666 must be of good character, law abiding and fit to have responsibility for children. The 2667 Army must ensure the health, safety and well-being of children and reduce the risk for 2668 2669 child abuse and neglect in all Army Programs and activities. Junior ROTC instructors will undergo an initial CNACI investigation and re-verification every five years. 2670

- 2671
- b. CNACI is a background investigation not a clearance, and all applicants/instructors
 must undergo this investigation regardless of their security level.

2675 c. An initial CNACI must be initiated and instructor must be found suitable prior to 2676 entering the classroom and a five year periodic re-verification for continued certification. 2677

- d. All JROTC instructors will undergo a criminal history background in order to protect
 the health, safety and well-being of Cadets.
- e. Instructors failing to comply with the above directive will have their certification
 revoked.

f. Instructors who have received a favorable interim suitability or fitness determination
based on the FBI criminal history background check are permitted Line-Of-Sight
Supervision (LOSS).

2688 g. Army Regulation 145-2 states, USACC will inform hiring officials the Army's 2689 approval to place an instructor in the classroom is contingent upon receipt of a favorable 2690 background investigation on the individual. Individuals with an unfavorable background 2691 check will be advised and qualification to serve as an instructor is revoked. 2692

h. The CNACI process is a continual evaluation process, such as:

(1) When a credit check is requested for positions requiring fiduciary
responsibilities, the Centralized Suitability Service Center (CSSC) will conduct suitability
adjudications for previous and/or current issues, financial indebtedness, and bankruptcy
finding of more than five thousand (\$5000) dollars.

(2) Any adverse information submitted, to include SIRs, will initiate a reevaluation
 of suitability.

(3) A break in service as a JROTC instructor of 24 months or more will require a
 new suitability evaluation.

i. Due process and appeal procedures. An individual will have ten days to respond to
 any derogatory information found through the suitability investigation.

2709 **5-17. Vacancies and Hiring Procedures**

2687

2693

2694

- a. Instructor Management Division (IMD) will assist hiring actions by:
 (1) Identifying, upon request, qualified personnel who have indicated a desire for
 employment in the state where the school is located.
- (2) Ascertaining the authorized and funded position is available, and the
 instructor's salary is to be cost-shared prior to approval. Confirm the individual selected
 for hire meets suitability and qualification requirements.
- b. The Director, JROTC, may classify JROTC instructor positions as "hard-to-fill," based on historical information which may include position vacancy rate, measures taken to fill the vacancy, geography, economics and other unique factors. This will allow exceptions to various requirements.

2724 **5-18.** Transferring within the Same District

a. Transferring an instructor is authorized only when the schools are in the same
district.

b. The school must request in writing authorization and approval from IMD to transfer an instructor to another school before the effective date of transfer. No transfers will be executed or processed until approval from IMD is granted.

c. Instructor pay is aligned with each school, not with the school district or the DAI
office.

2735 **5-19. Termination and Resignation**

2736 a. An instructor will give a 30-day (30 calendar days) written notice to the principal and to the Brigade with an end of employment effective date prior to termination, unless 2737 2738 specified in the contract. Failure to properly terminate a position may result in adverse action. The effective date of an instructor's employment, whether voluntary or 2739 2740 involuntary, stops any Army cost-sharing of an instructor's salary, as of the effective 2741 date of termination. Instructors who repetitiously change schools may be subject to 2742 adverse actions. Instructors who resign in the middle of the school year to take a 2743 position at another school may not have their salaries cost-shared at the new school. 2744

b. Nothing precludes an instructor from terminating employment voluntarily at any
time. An instructor who properly terminates a JROTC position remains eligible for
reemployment in JROTC for two (2) years from date of resignation or termination.

c. Any instructor who voluntarily resigns for any reasons (medical, retirement, etc.)
 must notify IMD, through their Brigade, in writing of their intent.

d. Written resignations/terminations must be submitted through the Brigade to IMD. If
notification of resignation/termination is not received, authorization to fill a vacant
position will not be authorized.

e. The Brigade Commander will initiate decertification procedures on any instructor who voluntarily resigns or has their employment terminated by the high school while under investigation for adverse action. The Brigade will advertise a vacant position on the JROTC website upon receipt of a resignation or termination letter.

2760

2761 **5-20.** Suspension of the Army Cost-Share

a. For any instructor suspended without pay by the school, the Army will terminatecost-sharing with an effective date of the suspension.

- b. For any instructor suspended with pay by the school, the amount cost-shared by
 the Army will be suspended/terminated 30 calendar days from the date of suspension.
- c. The amount cost-shared by the Army will be terminated after 30 calendar days of
 absence (i.e., sick leave, annual leave, strike, workman compensation, etc.). Excessive
 absence within a 60 calendar day period may result in adverse action. Instructors who
 attempt to circumvent the policy by being absent for 29 days, return to work, then be
 absent again within 72 hours, etc., will be subjected to adverse action. In extreme
 circumstances, exceptions may be granted by the Director, JROTC.
- 2774

2775 5-21. Furloughs

Schools hosting Army JROTC units must notify the Director, JROTC, IMD and the
respective Brigade of furloughs for Army JROTC instructors. The notification must
include the exact date(s) and names of instructors being furloughed. The notice must be
submitted electronically via e-mail, facsimile or mail by a school representative or the
JROTC instructor within 30 days of the furlough. Collection of cost-share for the actual
days of the furlough will be deducted from reimbursement pay.

2782

2783 Section IV – Performance Counseling and Unacceptable Performance

2784 **5-22. Performance Counseling/School Evaluations**

2785 a. SAIs will conduct initial performance counseling for AIs within the first 30 days of employment and then semi-annually. Similarly, DAIs will conduct initial counseling for 2786 SAIs within their district within the first 30 days and then on a semi-annual basis. 2787 Mandatory performance counseling will be documented on an appropriate counseling 2788 form used within the JROTC instructor's school district, or on a DA Form 4856 during 2789 the initial counseling and on subsequent counseling conducted on a semi-annual basis. 2790 2791 For schools under Brigade oversight (no DAI), the Brigade JROTC Chief, or designated staff member, will perform the counseling for SAIs and AIs (if a SAI is not present). 2792 2793 Brigade JROTC Chiefs will conduct performance counseling for DAIs. The performance 2794 counseling should address satisfactory and/or unsatisfactory performance and specify 2795 annual program objectives. The counselor and the counselee must sign all counseling 2796 statements and/or memorandums. Failure to maintain written counseling may result in 2797 probationary actions. Initial and semi-annual counseling will be inspected during JPA 2798 and on Assistance Visits (AV).

2799

(1) The evaluation of instructor classroom performance will be conducted using the
school's evaluation report (if applicable) during classroom evaluations and inspections.
Reviews will determine whether the instructors, individually and collectively, are
effective and efficient in conducting instruction, unit operations, and JROTC activities, in
accordance with this regulation and other directives.

2806 5-23. Unacceptable Performance Counseling

2807 a. When an instructor's performance has been identified as unacceptable, the supervisor will use the school district's procedures, forms, counseling, etc as it relates to 2808 2809 performance issues for the JROTC instructors. Failure to address performance issues may result in probationary actions. Additionally, the supervisor may initiate an adverse 2810 counseling for those instructors whose performance negatively affects his/her work and 2811 accomplishment of the JROTC mission. The supervisor has the option of using the 2812 school district's counseling form or DA Form 4856. The counseling form is a formal 2813 document that is developed with the instructor to improve deficiencies. Initial steps 2814 2815 could include performance counseling, training, and/or closer supervision. If performance continues to be unacceptable, recommendation for probation or 2816 2817 decertification may be recommended with proper documentation. If the problem is failure to meet one or more of the objectives/responsibilities he/she has established on 2818 the counseling form, then appropriate corrective actions would be specified under the 2819 school district's improvement plan. 2820 2821

2822 (1) The supervisor will decide whether the incident involves the instructor's poor 2823 job performance or an act of misconduct. Normally it is one or the other, but in some 2824 cases it may be both. The supervisor will decide what type of action will best address the incident. There are many possible causes for an instructor's performance and/or 2825 conduct problem; for example, illness, disability, substance abuse, personality conflict, 2826 family problems, lack of training, and low job morale. The nature of the problem will 2827 2828 determine the course of action to be taken. A fitness-for-duty medical examination may be needed to determine physical or mental capability to do the job. 2829 2830

(2) If it is misconduct or delinquency, such as tardiness, failure to report to duty,
sexual misconduct, failure to properly request leave, fighting, violation of public trust,
insubordination, and theft. One option is to take disciplinary action. For guidance on
administering discipline, refer to paragraph 5-25.

(3) There may be instances where the problems are both performance and
conduct. In these cases the supervisor can take disciplinary action and recommend an
instructor for immediate decertification.

2840 (4) At any time an instructor's performance is determined to be unacceptable, the supervisor must inform the instructor verbally and in writing. Counseling must state 2841 which performance or behavior is unacceptable, why it is unacceptable, and exactly 2842 what is required to bring job performance to the "success" level. The instructor must be 2843 2844 provided a reasonable period of time to demonstrate acceptable performance. That 2845 period, for instructors who are not in a probationary or trial period, takes the form of a 2846 performance counseling. The time needed to demonstrate acceptable performance is a 2847 judgment made by the supervisor in conjuction with the school administrator, during a 2848 trial period of 30 to 60 days, based on such considerations as:

- 2849 2850
- (a) The instructor's position and level of experience as a JROTC instructor.

 (b) The extent of the performance problem. (c) The severity of the problem. (c) The following supervisor actions may be necessary during the performance period: (a) Closer supervision and counseling. (a) Closer supervision and counseling. 2880 Section V – Adverse Actions
2881 5-24. Instructor/Cadet or Student Fraternization
2001 5-24. Instructor/Cauel of Student Fraterinzation
a. Instructors must not engage in and must prohibit fraternization or unprofessional
2883 relationships with Cadets. Examples include, but are not limited to physical contact with
2884 a student; socializing in an overly familiar manner such as texting, social networking,
2885 tweeting, blogging, etc. Instructors will not allow Cadets to perform personal services
2886 (i.e., babysitting, house sitting, pet sitting, yard work, etc.); and counseling or talking to
2887 Cadets alone behind closed doors is prohibited. This may result in
2888 probation/decertification for JROTC personnel. Cadets who violate this policy may be

2888 probation/decertification for JROTC personnel. Cadets who violate this policy may be 2889 disenrolled from the program.

2890

b. JROTC units that have and maintain an on-line presence such as Facebook, school websites, and other electronic media are reminded that these are open to scrutiny by any person or group. The burden to ensure no unauthorized, nonprofessional, too personal, or other material that would violate good morale and discipline, rests with the SAI and AI of that program. Units must adhere to their school
district policies and procedures when establishing an online community in support of
their program.

2899 5-25. Probation and Decertification

2900 a. Newly certified instructors will serve in a probationary status for two academic years of employment. Unsatisfactory performance during the probationary status may 2901 result in termination of certification. Instructors are required to attend the JROTC 2902 Instructor Certification Course - Basic within the first academic year as a JROTC 2903 2904 instructor, and the JROTC Instructor Training Course - Advanced Course every five years thereafter. Failure to comply may result in termination of certification. The 2905 2906 certification of an instructor who is suspended by the school with/without pay, pending the outcome of an investigation, will be flagged, and his/her certification suspended until 2907 the investigation is completed. The Director, JROTC, may consider probation each time 2908 2909 an instructor transfers to a new JROTC instructor position. 2910

b. IMD will determine if the substandard performance or the circumstances of the
termination of employment warrants withdrawal of certification. The instructor will be
given the opportunity to provide written documentation to IMD prior to a final decision to
decertify by the USACC Deputy Commanding General (DCG).

- c. Administrative requirements to complete probationary status.
- 2918 (1) Complete all certification requirements IAW paragraph 5-25 above.
- 29192920 (2) Receive satisfactory counseling and school evaluations.
 - (3) Attend JCLC.

2924 d. Brigades and school administrators may recommend probation for instructors who 2925 demonstrate unsatisfactory performance. Unsatisfactory performance will be documented in writing, including a performance counseling to correct the deficiency. 2926 Probation is appropriate when counseling, professional development, and other 2927 corrective measures within one year or less does not improve or correct the 2928 unsatisfactory behavior. IMD will determine if the probationary status should be 2929 removed or if decertification is warranted, based on recommendations from Brigade, 2930 school administrator, and immediate supervisor. Instructors may be placed on probation 2931 2932 for the following (not all inclusive): 2933

- (1) Not in compliance with the USACC Fitness and Appearance standards IAW
 Appendix D.
 2936
- 2937 (2) Unsatisfactory performance on JPA IAW CCR 145-8-3.
- 2938 2939

2916

2917

2921 2922

- (3) Violating public trust, displaying disrespect, misconduct or performance.

0040	
2940 2941	(4) Adverse initial counseling and failure to improve in accordance with the
2941	performance counseling.
2943	performance coursening.
2944	(5) Failure to complete the mandatory training requirements.
2945	
2946	(6) Failure to attend JCLC.
2947	
2948	(7) Violation(s) of local school policies as they relate to teacher conduct, behavior,
2949	and performance.
2950	
2951	(8) Failure to properly manage their annual JROTC budget and/or failure to
2952	complete required Government Purchase Card actions in a timely manner.
2953	
2954	(9) Failure to ensure Cadet participation in JLAB Level I. Instructors must "Reply
2955	by Endorsement" to Brigade Commander, in the event their program fails to participate

2972	recommended, the instructor will be notified of the intent to decertify and will be
2973	provided a copy of the decertification packet. The instructor will have 30 calendar days
2974	from the date of notification to submit a rebuttal packet that includes supporting
2975	documentation to the Director, JROTC. The DCG will make a determination based on
2976	the evidence and the individual's response. If decertification is warranted, the individual
2977	will be notified of the decision and given the opportunity to appeal to CG, USACC within
2978	10 calendar days after the decertification. The CG is the final authority. Examples of
2979	cause for decertification include the following (not all inclusive):
2980

3017 3018 3019 3020 3021 3022	g. One or more instructors at a unit may be placed in a probationary status when continuing unit viability problems persist. For example, attributable to one or more instructors, low enrollment, poor inspection results, or other indicators of marginal or unsatisfactory unit performance are, in the judgment of school officials or military supervisors.
3023 3024 3025 3026	h. DAIs and MPSs may also be put on probation and decertified for noncompliance with regulations or for failure to provide required support to instructors and units in their districts.
3027 3028 3029 3030	i. Recommendations from Brigade, school administrators, and immediate supervisors will accompany all adverse actions. If the adverse action does not include recommendations from the instructor's chain of command (including school officials) the action may be disapproved. When the DCG makes a decision, the information will flow

through the same chain of command as did the recommendation to ensure everyoneconcerned is informed of the action taken.

3033

3034 **5-26. Conduct of JROTC Instructors During School District Strikes**

a. If instructors are members of teachers unions, and are expected to participate in a
strike, demonstrations, protests or activities involving strikes, they may do so. However,
they will not be in uniform, and the Army will not cost share the instructor's salary for the
time they are not working. Use of Cadets in uniform in support of strikes or
demonstrations is also prohibited.

3040

b. If instructors are not members of the teachers union and are not obligated to strike,
they will report to their place of duty designated by school officials. They will not cross
picket lines and will avoid contact with those people participating in the strike,
particularly if they are in uniform.

3045

3046 Section VI – Brigade Weight Control Program (BWCP)

3047 **5-27. Scope**

3048 DAI/SAI/AIs are responsible for maintaining appropriate standards of weight,
3049 appearance, and fitness, regardless of age, for retention in JROTC. If an instructor fails
3050 to meet the height/weight and BFP, IAW Appendix D, he/she will be enrolled in the
3051 BWCP.

3052

3053 5-28. Standards and Procedures

All instructors must maintain and present an acceptable military appearance and stay within body fat standards. The BWCP establishes procedures to prevent hiring applicants for JROTC instructor duty who exceed weight and body fat standards or do not present an acceptable appearance in uniform; to monitor the body fat status and appearance of DAI/SAI/AIs; and to eliminate instructors who do not conform to body fat standards. Standards for measuring height/weight, and procedures for taping and recording body fat are outlined in Appendix D.

3062 5-29. Responsibilities

- 3063 a. Brigades will:
- 3064

3065 (1) Measure and record the height/weight of all instructors or DAI personnel3066 annually IAW Appendix D of this regulation.

3067

3068 (2) Review annual School/Program Checklists to identify instructors not in
 3069 compliance with height/weight standards not later than 15 Oct annually, and record
 3070 results in JCIMS.
 3071

3072 (3) Monitor JROTC instructors to ensure compliance of height/weight standards.

3073 3074 (4) Place instructors not in compliance with height/weight standards in the BWCP for a minimum of six months, but no more than 12 months. Brigade may task DAI/SAIs 3075 3076 to weigh-in, tape, and counsel instructors enrolled in the BWCP. The collected data will 3077 be forwarded to Brigade for processing. 3078 3079 (5) Recommend instructors seek medical attention within an adequate amount of 3080 time prior to placing the instructor on the BWCP. 3081 3082 (6) Submit a memorandum to IMD requesting probation. The memorandum must 3083 contain the name, height/weight, and BFP of the instructor. 3084 3085 (7) Administer probationary letter from the Director, JROTC, to the instructor. It is 3086 Brigade's responsibility to issue the letter to the instructor. 3087 3088 (8) Request removal from the BWCP for an instructor who meets the BFP within 3089 six months. 3090 3091 (9) Ensure all JROTC instructors and DAI personnel comply with height/weight 3092 standards prior to attending instructor training. Brigades will, in advance, notify IMD of 3093 personnel attending training who are not in compliance with height/weight standards. 3094 3095 b. IMD will: 3096 3097 (1) Prepare a memorandum which places the instructor in a probationary status for 3098 failing to meet height/weight and body fat standards, or one that removes an instructor 3099 from the BWCP. 3100 3101 (2) Furnish copies of the probationary letter to Brigade. 3102 3103 (3) Initiate the decertification process, in accordance with procedures prescribed in 3104 this regulation, if the instructor is re-enrolled within 12 months of a previous enrollment. 3105 This action is appropriate if there are no underlying or associated disease found as the 3106 cause of the condition. 3107 3108 c. DAI/SAI/AIs will: 3109 3110 (1) Ensure instructors reply by endorsement, through Brigade to USACC, upon 3111 receipt of the probationary letter. 3112 3113 (2) Request removal from the BWCP for instructors who meet their BFP, IAW this 3114 regulation. 3115 3116 d. School officials should be informed that the Army requires instructors to maintain 3117 prescribed body fat standards and present an acceptable military appearance.

3118 Instructors certified to teach Army JROTC who fail to maintain acceptable weight 3119 standards, IAW this regulation, may result in decertification procedures.

3120

e. If enrolled in the BWCP, an instructor is expected to conscientiously pursue a
reasonable and satisfactory body fat loss regimen. Instructors should seek medical
assistance in establishing a safe and effective body fat reduction regimen. They should
exercise self-discipline and self- motivation in reaching the standard. Failure to reach
and maintain the standard or a professional military appearance in a specified period of
time will result in decertification.

3127

f. Satisfactory progress in the BWCP is defined as a monthly loss of three to eight
pounds, unless it is determined by a qualified physician that the monthly weight loss
progress or period should be adjusted because of underlying medical conditions. Loss
of fewer than three pounds per month is unsatisfactory, unless otherwise directed by a
physician.

3134 5-30. Height/Weight Procedures

a. JROTC instructor applicants must meet USACC Instructor Qualification Fitness
and Appearance Standards before participating in the JROTC. IMD will ensure the
applicant's information packet includes weight standards and make it clear that such
standards must be met before an application is accepted. If the application reflects an
unacceptable weight, a body fat measurement must accompany the request. If the body
fat standard is not met, the application will be returned without action.

3141

b. Weight tables at Appendix D reflect the point at which obesity normally begins,
based on height measurements. These weight tables will be used as an initial indicator
that body fat standards may be exceeded. Instructors are required to report their
height/weight on the school program checklist.

3147 5-31. Body Fat Standards

3148 a. Body fat standards: If an instructor exceeds the prescribed weight, he/she will then 3149 be measured for body fat percentage. The circumferential measurement technique at Appendix D is the only acceptable body fat measurement technique. Another indicator 3150 3151 of excessive body fat is an individual's professional military appearance. Instructors who present a poor professional military appearance will be measured for body fat 3152 3153 percentage, regardless of weight. Body fat standards are 30% for men and 36% for women. An instructor who is identified as exceeding body fat standards will be enrolled 3154 in the BWCP in an effort to help him/her lose body fat, achieve a professional military 3155 3156 appearance, and comply with Army standards. 3157

b. The body fat standard may be adjusted for unusual circumstances. Unusual cases may arise in which an instructor's body fat percentage is determined to exceed the standard prescribed by this regulation. Yet, in the opinion of the Brigade, the instructor

- does not appear overweight. In such a case, a body fat standard adjustment may bewarranted. The following procedures will normally apply:
- 3163

(1) An instructor requesting a body fat adjustment will obtain a body fat
measurement conducted by a medical practitioner IAW Appendix D; a written statement
describing the instructor's overall physical condition; and whether the practitioner
considers the instructor to be overweight.

- 3169 (2) The instructor will provide a written request for body fat adjustment with the practitioner results and a current full-length photo (profile and straight-on pose) to 3170 Brigade. Brigade may disapprove the request if the proposed body fat standard 3171 3172 adjustment will detract from the instructor's military appearance or concur with the 3173 proposed body fat standard adjustment if it is determined that the adjustment does not detract from the instructor's military appearance. Brigades will forward the request to 3174 IMD, USACC, the final approval authority, who acts on each case according to 3175 3176 information provided.
- 3177

3178 (3) Brigade may recommend that the Director, JROTC, revoke an adjustment at
any time, if the instructor ceases to present a professional military appearance. An
approved body fat adjustment is valid for up to one year from date of approval. A
request for renewal is the responsibility of the instructor and will be evaluated annually,
as prescribed above.

3183

3184 (4) When a request for a body fat standard adjustment is disapproved, the
3185 instructor will be placed in or continued in the Brigade's BWCP.
3186

3187 5-32. Preparation of Body Fat Content Worksheet (BFCW)

Brigade is responsible for completing the BFCW for an instructor who exceeds the
acceptable weight (Appendix D, Table D-1) or when the instructor's appearance
suggests that body fat is excessive. BFCW is used to determine the instructor's body fat
percentage (BFP), using the circumference technique described in this regulation.

3192

3193 Section VII – Instructor Pay

3194 **5-33.** Authority and Administrative Regulations

- 3195 a. Statutory authority for payment of JROTC instructors is contained in Title 10,
 3196 United States Code, Section 2031.
- 3197
- b. Defense Finance and Accounting Service (DFAS) 37–1 (Finance and Accounting
 Policy Implementation) prescribes policies and procedures for finance and
 accounting officers.
- 3201
- 3202 c. Schools are required to employ and pay retired personnel according to the3203 provisions of this regulation.

3205 5-34. Verification of Participating Schools

To verify that schools requesting payment are active participants in the JROTC
Program, USACC will maintain an authenticated copy of the counter-signed DA Form
3126 (Application and Contract for a Junior Reserve Officers' Training Corps Unit).
USACC will ensure pay reimbursement is discontinued when the school's participation
in the program ends.

3211 3212 **5-**3

5-35. Instructor's Pay

a. Pay is authorized for retired instructors employed by the school, whose
qualifications are approved by the CG, USACC, in the amount that, when added to their
retired pay will equal the amount of their active duty pay and allowances exclusive of
hazardous duty pay. DOD Instruction 1205.13 and Enclosure 1 to 32 Code of Federal
Regulations (CFR) Part 111.7, show examples of calculations for how JROTC
instructor's compensation pay is calculated. Active duty pay and allowances to be used
in computing the pay of JROTC instructors include:

3220 3221

3222

3227

3228 3229

3230

(1) Basic pay (longevity increases).

(2) Basic Allowance for Housing (BAH) (including Alaska and Hawaii) and any
housing allowance authorized for post of assignment in Volume 1, JFTR (unless
Government quarters are occupied).

- (3) Cost of living allowance authorized for post of assignment in Volume 1, JFTR.
 - (4) Clothing maintenance for enlisted personnel.
- 3231 (5) Basic allowance for subsistence.3232

b. Minimum Instructor Pay (MIP) is the difference between official retired pay,
reported by DFAS, and the active duty pay and allowances (excluding hazardous duty
and special pays). Active duty Pay and Allowances are based on the DFAS current year
Military Pay Tables.

- 3238 (1) Basic pay (calculated on rank and years of service). 3239
- 3240 (2) Basic allowance for housing (based on zip code of employing school).3241
- 3242 (3) Cost of living allowance (if applicable).3243
- 3244 (4) Overseas housing allowance (if applicable).
- 32453246 (5) Clothing allowance for uniforms (enlisted only).

- 3248
- 3249 3250

- (6) Basic allowance for subsistence.
- (7) Schools employing JROTC instructors must pay the minimum instructor salary.

3252 c. JROTC instructors are entitled to pay from the school or educational department 3253 for a minimum contract period of 10 or 11 months as negotiated by the JROTC 3254 instructor and school officials. (Note: Schools may negotiate contracts of less than 11 3255 months; however, they will ensure year round management of the program and control of military property.) DAIs and MPSs will be cost-shared for 12 months. Headquarters, 3256 3257 Department of the Army, ensures adequate and timely availability of funds to meet Army 3258 contractual requirements for instructor salaries. The Army will not reimburse the 3259 school for any portion of extracurricular services not related to JROTC. 3260

3261 d. The Army will determine the minimum instructor pay (MIP) for each hired instructor; however, schools may pay instructors more than the amount in paragraph a 3262 3263 above and will, as a minimum, offer instructors the same benefits package received by teachers in a comparable status. The amount paid to the school by the Army is limited 3264 to that prescribed in paragraph 5-35e below. USACC will furnish those figures to 3265 3266 schools upon request. USACC obtains information pertaining to retired pay from the 3267 DFAS center. Stipends are paid to the instructor at the school district's discretion. If the 3268 stipend is paid for JROTC related activities or duties, this amount will not be calculated 3269 as part of the MIP. The stipend is any amount above the MIP. 3270

3271 e. For each retired instructor being reimbursed by the Secretary of the Army, and 3272 employed by the school 12 months each year, DA will pay to the school an amount equal to one-half the difference between the instructor's retired pay and the amount of 3273 3274 pay and allowances (excluding hazardous duty, flight, and other specialty pay) the 3275 instructor would receive if ordered to active duty. For periods of service as a JROTC 3276 instructor of less than 12 months, the instructor will be compensated the difference 3277 between the amount of the retired pay and active duty pay for the length of employment 3278 as a JROTC instructor. This should be expressed as a fraction of 12 months. In districts 3279 that compensate instructors for less than 12 months or any period greater than the 3280 contract, the instructor's salary will be cost-shared based on the number of contract 3281 months rather than the pay periods.

- f. Schools will provide an employment contract (approved by the Army) for a JROTC
 instructor for that part of the summer (or interim) months, between academic sessions,
 during which the instructor performs administrative or instructional duties that are
 directly related to the JROTC Program. Administrative and instructor to compensation
 related to the JROTC Program that would entitle a JROTC instructor to compensation
 include, but are not limited to:
- 3290 (1) Administrative and instructional duties performed in an interim term JROTC
 3291 program, such as summer school and camps.
 3292

3282

3293 (2) The preparation of new course materials during the period immediately before 3294 the beginning of a school year.

3295 3296

3297

(3) The collection of uniforms, books and supplies at the end of a school year.

3298 5-36. Reimbursement Procedures

3299 a. The school is responsible for submitting a Request to Hire Letter before the 3300 effective date of employment. For example hiring packet, see https://www.usarmyjrotc.com/library. Only personnel qualified by USACC are eligible for 3301 3302 employment as instructors. Schools districts must submit to Brigade Headquarters a complete hiring packet to include DD Form 2754, Pay Certification Worksheet for 3303 3304 Entitlement Computation with supporting documents, and DD Form 2767, Annual Certification of Pay and Data Form. Failure to notify IMD in a timely manner could result 3305 in the school district's not receiving the entire reimbursement for cost-sharing. Instructor 3306 3307 Pay will deny reimbursement of funds beyond thirty (30) days.

3308

b. Schools will receive reimbursement for the new instructor's salary, based on
approval date in writing.

c. Overlapping of instructors for on-the-job training is not authorized. If this is desired
by the school, the school system will bear all costs.

d. Individuals are not eligible for cost-sharing while on terminal leave from the Army.
All costs associated with hiring an individual on terminal leave will be paid by the school system.

e. Schools may advertise vacancies by notifying their Brigade via email.

f. A school may request a listing of eligible instructors seeking employment by contacting their Brigade.

3323

3319

3320

3324 **5-37. Salary Deductions**

The salary received by instructors is subject to the same deductions as all other wages in which an employer-employee relationship exists. Deductions for taxes, insurance, dues, fees, and similar items are the responsibility of the school. Although an instructor may receive an amount "equal" to the military pay and allowances he or she would receive if on active duty, the payments he or she receives are not, in fact, military pay and allowances paid by the Army.

3331

3332 **5-38. Longevity Increases**

All time ensuing after the retirement date is creditable in determining the amount of active duty pay and allowances. Increases in longevity will accrue during the period of the contract thereby creating periodic pay increases.

3337 **5-39.** Payments to Schools or Other Educational Departments

3338To obtain monetary allowances from the Army for payment of authorized instructors, the3339school must submit the JROTC Instructor Annual Certification and Pay Data (IACP&D)3340Form. The IACP&D Form must be submitted for returning authorized instructors to the3341Brigade through JCIMS annually no later than 30 days prior to the contract start date.

3342

3343 Chapter 6 - JROTC Instructor Education and Training

3344 Section I – General

3345 **6-1. Scope**

This chapter provides a general overview of the JROTC curriculum. It describes the
Leadership Education and Training (LET) curriculum including its accreditation
information, core abilities, competencies, and program outcomes. This chapter also
identifies the education standards the curriculum is aligned with: Common Core States
Standards, National Geography Standards, National Standards for Civics and
Government, Physical Education Standards, and the National Health Education
Standards.

3354 6-2. Accreditation Information

a. The Army JROTC program maintains accreditation from an agency recognized by
 the Secretary of Education and authorized by DoD. Through accreditation, JROTC
 demonstrates a commitment to continuous improvement in education by adhering to
 these five quality standards:

3359 3360

3365

3367

3369

- 0 (1) Standard 1 Purpose and Direction
- 33613362 (2) Standard 2 Governance and Leadership3363
- 3364 (3) Standard 3 Teaching and Assessing for Learning
- 3366 (4) Standard 4 Resources and Support Systems
- 3368 (5) Standard 5 Using Results for Continuous Improvement

b. To sustain its accreditation, JROTC implemented the JROTC Program for Accreditation (JPA). The above quality standards are integrated into JPA. JPA assesses effective teaching, learning, and continuous improvement; factors which indicate how well a JROTC program is performing. Brigade staff members use the JPA framework to guide their observations, evidence collection, analysis, action plans, and reports. Refer to Cadet Command Regulation 145-8-3, *JROTC Program for Accreditation* for specific details about JPA assessments.

3378 6-3. Education Standards Integrated into JROTC Curriculum

3379 a. Common Core States Standards (CCSS), English Language Arts (ELA) Source: www.corestandards.org/. The standards are grouped at three levels: grade 8, 3380 grades 9-10, and grades 11-12. The anchor for the standards is based on a set of 3381 college and career-readiness standards, which address what students are expected to 3382 know and understand by the time they graduate from high school. The standards also 3383 3384 include guidelines for literacy in history/social studies, science, and technical subjects. 3385 Because students must learn to read, write, speak, listen, and use language effectively in a variety of content areas, the standards promote the literacy skills and concepts 3386 3387 required for college and career readiness in multiple disciplines. Crosswalks to Common Core States Standards ELA are available in JROTC Curriculum Manager 3388 Global Resources. The ELA standards establish guidelines in six areas: 3389 3390 3391 (1) Reading: Literature 3392 3393 (2) Reading: Informational Text 3394 3395 (3) Writing 3396 3397 (4) Speaking and Listening 3398 3399 (5) Language 3400 3401 (6) Range, Quality, and Complexity of Language Skills 3402 3403 b. The 18 standards include target outcomes in six thematic 3410 areas: 3411 3412 (1) The World in Spatial Terms 3413 3414 (2) Places and Regions 3415 3416 (3) Physical Systems 3417 3418 (4) Human Systems 3419 3420 (5) Environment and Society 3421 3422 (6) The Uses of Geography

3428	standards are intended to help schools develop competent and responsible citizens who
3429	possess a reasoned commitment to the fundamental values and principles that are
3430	essential to the preservation and improvement of American constitutional democracy.
3431	The standards for high school students encompass five thematic areas:

3435	(2) What are the Foundations of the American Political System?

3467	www.cdc.gov/healthyschools/sher/standards/index.htm. The National Health Education
3468	Standards (NHES) are written expectations for what students should know and be able

3469 to do by grades 2, 5, 8, and 12 to promote personal, family, and community health. The standards provide a framework for curriculum development and selection, instruction, 3470 and student assessment in health education. Over the last decade, the NHES has 3471 3472 become an accepted reference on health education, providing a framework for the adoption of standards by most states. The standards focus on eight areas: 3473 3474 3475 (1) Exploring concepts related to health promotion and disease prevention to 3476 enhance health. 3477 3478 (2) Analyzing the influence of family, peers, culture, media, technology, and other factors on health behaviors. 3479 3480 3481 (3) Accessing valid information, products, and services to enhance health. 3482 3483 (4) Using interpersonal communication skills to enhance health and avoid or reduce 3484 health risks. 3485 3486 (5) Using decision-making skills to enhance health. 3487 3488 (6) Using goal-setting skills to enhance health. 3489 3490 (7) Practicing health-enhancing behaviors and avoid or reduce health risks. 3491 3492 (8) Advocating for personal, family, and community health. 3493 3494 6-4. Performance-based Model of Instructional Design 3495 a. The JROTC curriculum is based on the principles and best practices of 3496 performance-based, learner-centered education, which specifies desired results 3497 (knowledge, skills, and attitudes) in advance of instruction. It explicitly states criteria used to measure performance, requires learners to perform the competency as 3498 evidence of achievement, and provides learners with opportunities to develop each 3499 3500 competency through a myriad of thoughtful and engaging learning activities. As a result, 3501 Cadets:

3502 3503 (1) Learn skills they can use; not outlines of information or isolated facts. 3504 3505 (2) Know the performance expectations up front. 3506 3507 (3) Engage as active partners in the learning process. 3508 3509 (4) Document accomplishments and competence. 3510 3511 (5) Learn how to learn. 3512

3513 6-5. Core Abilities, Program Outcomes, and Course Competencies

3514 a. The program's design aligns three different sets of outcomes: Core Abilities, Program Outcomes, and Course Competencies. Every learning experience in the 3515 curriculum will address all outcomes, building on developing skills and abilities, critical to 3516 3517 Cadets' success in high school and post-secondary careers. 3518 3519 b. Core Abilities: Core abilities describe the broad, life-long skills that every Cadet 3520 needs for success in future life and career endeavors. The core abilities are a result of 3521 the goals and values that drive the JROTC program and are built upon the program's 3522 four years through integrating various lesson competencies and skills throughout the JROTC curriculum. With each lesson the instructors explicitly introduce, teach, 3523 3524 reinforce, and assess the core abilities that relate to the core competency being 3525 introduced. The core abilities will be displayed prominently in JROTC classrooms so that Cadets will know, recite, and view them as essential components of their lessons. 3526 3527 3528 (1) Apply critical thinking techniques. 3529 3530 (2) Build your capacity for life-long learning. 3531 3532 (3) Communicate using verbal, non-verbal, visual, and written techniques. 3533 3534 (4) Do your share as a good citizen in your school, community, country, and the 3535 world. 3536 3537 (5) Take responsibility for your actions and choices. 3538 3539 (6) Treat self and others with respect. 3540 3541 c. Program Outcomes: Program outcomes describe what JROTC Cadets will know 3542 and be able to do upon successful completion of the JROTC program. These outcomes also provide documentation for growth and development of the student and program for 3543 3544 re-accreditation purposes, school visitors, parents, and the community. As Cadets complete each LET lesson, their journey toward program outcomes will occur; each 3545 3546 program outcome is linked to every LET lesson in the curriculum. Evidence of learning can be witnessed through a Cadet's Portfolio, which will showcase continued 3547 3548 development of program outcomes. The JROTC program outcomes are: 3549 3550 (1) Act with integrity and personal accountability as you lead others to succeed in a diverse and global workforce. 3551 3552 3553 (2) Engage in civic and social concerns in the community, government, and 3554 society. 3555 3556 (3) Graduate prepared to succeed in post-secondary options and career pathways. 3557

- 3558 3559
- (4) Make decisions that promote positive social, emotional, and physical health.
- 3560 3561
- (5) Value the role of the military and other service organizations.

d. Course Competencies: Competencies describe discipline-specific measurable and observable skills, knowledge, and attitudes. They are targeted in each lesson of the curriculum. Performance standards (criteria and conditions) provide the specifications for assessing mastery of a competency. Cadets show they have learned competencies by applying them in the completion of assessment tasks that require them to do one or more of the following:

- 3568
- 3569 (1) Make a decision.
- 3570 3571 (2) Perform a skill.
- 35723573 (3) Perform a service.
- 35743575 (4) Solve a problem.3576
- 3577 (5) Create a product.
- 3578

3579 6-6. Curriculum Plan

3580 The curriculum includes four core Leadership Education and Training (LET) units, one for each high school grade level. Courses are designed as a typical 1-credit high school 3581 3582 course requiring 120-180 contact hours. A curriculum plan by LET level is required to be 3583 published annually with a copy placed in the instructor portfolio and forwarded to Brigade if required. It must show each subject, the number of hours required, and the 3584 3585 number of hours scheduled for instruction in each subject. The curriculum plan will validate the number of hours and schedule of electives. The curriculum plan and weekly 3586 training schedules will be used as a general guideline in presenting the curriculum. 3587 Changes to the schedule will be documented locally and available for review during 3588 3589 Assist Visits/Formal Inspections. 3590

3591 6-7. Lesson Plans

The curriculum will be taught using the 4-phase lesson plan. The complete 4-phase lesson plan with supporting materials is provided through the Curriculum Manager. Modifications are permitted in the presentation phases as long as the lesson format remains the same and the modified materials support the existing lesson objectives.

3596

3597 **6-8. Methods of Instruction**

a. The Methods of Instruction included in the JROTC program are intended to
engage Cadets in active learning. In contrast to listening to PowerPoint lectures, the
following methods should be used:

3601 3602	(1) Peer Collaboration and Teaching
3603	(1) Tool oollaboration and readining
3604 3605	(2) Group Discussion and interaction
3606	(3) Hands-on activities and other activities
3607 3608	(4) Virtual Learning (school district approved educational platforms i.e. Google
3609 3610	classroom, Edmodo, Zoom, etc.)
3611 3612 3613 3614	b. These methods include a variety of research-based instructional techniques extended or adapted to promote learning for students with a wide range of background knowledge and skills. Also available are multimedia, instructional, and personal development tools such as WILL Interactive simulations, "CERT Alert" (First Aid Game)
3615	and "Success Profiler."
3616 3617	c. Lesson plans have been designed to include instructional techniques that
3618	encourage Cadets' maximum participation. Instructors and/or assistant instructors
3619 3620	(Cadets) facilitate the instruction to meet the objectives of the lesson.
3621	d. The Director, JROTC updates the curriculum and training material as needed
3622	including the latest technology, multi-media, research, and content. Instructor input and
3623 3624	participation is a crucial part of the curriculum updates and reviews. Instructors will check the JROTC website monthly for new or updated materials.
3625	check the tree to website monthly for new or updated materials.
3626	e. Use the Guest Speaker Program to enhance instruction and provide an interesting
3627	variation to classroom instruction. Ensure speakers are aware of the objectives of the
3628 3629	lessons and will focus on meeting the objectives. The SAI/AI may need to provide supplemental material not presented by the guest to ensure learning objectives are met.
3630	The SAI/AI will ensure the Guest speakers comply with district/school security/safety
3631	protocol requirements.
3632	
3633	6-9. Grading System
3634	Instructors must maintain a meaningful, data driven evaluation system. Assessment and
3635	evaluation tools are provided on the Curriculum Manager. These materials have been
3636 3637	designed to assess the objectives of the lessons. Each JROTC unit will establish an SOP explaining the grading system and ensure it conforms to JROTC and school
3638	policy. The SOP will, at a minimum, address a balanced proportion of academics and
3639	co-curricular credit commensurate with school policy. The Classroom Performance
3640	System (CPS) has an automated assessment feature to track students' answers and to
3641	provide sophisticated reporting data of grades.

3643 6-10. English Language Learners (ELLs)

Many students are attending high school that do not speak English as their first language and would like to be in JROTC. It is recommended that instructors work with the school staff as necessary to make accommodations for ELLs to learn the curriculum while improving their English language and comprehension skills and not impede the instruction for the other Cadets in the class. Instructors working at schools with a high percentage of ELLs should seek Professional Development opportunities for teaching ELLs.

3651

3652 6-11. Brigade/Unit Evaluations

3653 Brigades will inspect and visit JROTC units in accordance with CCR 145-8-3 and this 3654 regulation. The JROTC Directorate will conduct all inspections of Brigades in 3655 conjunction with the published USACC inspection schedule IAW CCR 145-8.

3656

3657 Section II – Instructor Certification and Professional Development

3658 6-12. Scope

This section provides guidance and outlines responsibilities and requirements for certification, re-certification, and professional development of JROTC instructors and Director of Army Instruction personnel. JROTC cerification does not supersede nor usurp the state/district licensing or school requirements for local continuing certification. Instructors may be required to complete all state and district-specific certification requirements including enrolling in a teacher state certification/licensure program. The state may also require demonstration of competency in specific subjects.

3667 6-13. Authority to Execute

a. The Director, JROTC is responsible for the certification and re-certification of
JROTC instructors and Director of Army Instruction personnel. Certification and recertification standards are based on guidelines established by the National Defense
Authorization Act (NDAA); United States Code, Title 10, Ch. 102; Department of
Defense Instruction (DODI) 1205.13; and accrediting agency.

 acceptable.
- 3740

3741 6-16. JROTC School of Cadet Command (JSOCC)

a. This section provides course descriptions for all courses conducted by JSOCC.
The JROTC School of Cadet Command (JSOCC) is responsible to support, deliver, and
execute all courses/training required for certification and re-certification.

3746 b. JSOCC Instructor Training Course - Basic (ITC-B): The ITC-B is a four day course 3747 conducted by the JROTC School of Cadet Command (JSOCC) which includes the 3748 completion of two phases, a distance learning phase 1 completed within 6 months and a resident phase 2 completed within 12 months of hire. The purpose is to provide new 3749 instructors with a hands-on environment to develop the skills and techniques required to 3750 3751 execute the JROTC program in support of both JROTC and school goals. Normally a resident course, but may be conducted on-line during special circumstances, i.e. 3752 3753 pandemic. It also provides opportunities for instructors to train with the latest classroom 3754 technology, curriculum materials, innovative classroom teaching strategies and other educational tools currently available in the training and education environment. JSOCC 3755 trainers and select staff will model research-based instructional practices, strategies, 3756 and techniques to accomplish the mission: "To motivate young people to be better 3757 3758 citizens." Select Brigade personnel may also attend this course.

3759

c. JSOCC Instructor Training Course - Advance (ITC-A): This course maybe a
resident or an online course depending on national health and CDC guidelines,
designed to provide instructors with updated learning strategies, teaching techniques,
and advanced instructional strategies to support their continued certification
requirements. Select Brigade personnel may also attend this course.

3765

3766 6-17. Professional Development

a. USACC encourages instructors to take advantage of every opportunity to stay
abreast of the latest instructional strategies, teaching techniques, learning strategies,
and continuing education courses offered by their resident school districts. These
opportunities include participation at professional organizational conferences and
workshops, teacher in-service training, Brigade Training Workshops, online learning
courses, and participation in professional education organizations.

- 3773
 3774 (1) Instructors are required to review JSOCC online learning courses annually to
 3775 remain professionally current with new material, new courses, and new requirements.
- 3777 (2) Annual Brigade Instructor Training Workshop: Annual training will be 3778 conducted, as funding permits, to enhance the skills of instructors in unit inspection 3779 procedures, instructional techniques and innovative teaching strategies. The training will 3780 be executed through seminars, educational workshops, and/or virtual platform. The 3781 SAI/AI will attend the training on a rotating basis. The DAI's attendance will not satisfy 3782 the requirement for subordinates' annual Brigade instructor training. The agenda for the 3783 training will be developed by Brigade under the direction of the USACC JROTC staff. 3784 All JROTC instructors are required to attend annual Brigade training a minimum of once 3785 every three years to retain their JROTC certification. 3786
- 3787 (3) School/district professional development training: Instructors must adhere to
 3788 requirements imposed on other faculty members by principals or superintendents and
 3789 participate in in-service activities, as required.
 3790
- 3791 (4) Professional development opportunities: Instructors are encouraged to 3792 participate in a wide variety of educational professional development opportunities. 3793 Instructors who have a special interest and skill in curriculum development may be 3794 asked to teach in JSOCC. Instructors may also serve as members of curriculum 3795 workgroups and become train-the-trainers. School officials are requested to allow these instructors to participate in these efforts to improve JROTC. School officials are 3796 3797 requested to award continuing education credit or professional development units for 3798 such activities, as appropriate. 3799
- (5) Other Service Courses: Instructors may attend other services' course (USAF,
 USMC and USN) at no cost to the Army on a space available basis. Attendance at
 these courses must be authorized by Brigade.
- (6) USACC JROTC Logistics/Supply Course: This unit-focused logistics training
 course is primarily for personnel who work in the JROTC unit's supply area and GPC
 card holders and billing officials. The course will train individuals in the procurement,
 inventory, and accountability of government property.

3809 Chapter 7 - Cadet Management

3810 Section I – How Cadets Get Enrolled (Opening Enrollment)

3811 **7-1. Scope**

3812This chapter outlines the reporting and management of Cadets and Cadet records and

- 3813 protection of PII. Cadet Management is the life cycle of active Cadets enrolled in a
- 3814 JROTC Program.

3815 7-2. Enrollment Requirements

3816 a. Cadet/student administration in JROTC must be consistent with the principles contained in AR 145-2. To be eligible for enrollment and continuance as a member of 3817 the JROTC unit, each Cadet/student must meet the following requirements: 3818 3819 3820 (1) Education: The Cadet/student must be enrolled in: 3821 3822 (a) Full-time regular course at an institution offering JROTC instruction, or 3823 3824 (b) Cadet Distance Learning Program. The number of Cadets enrolled in the Cadet Distance Learning Program will not exceed 2% of the unit. For additional 3825 information, refer to the following website: https://www.usarmyjrotc.com/library. 3826 3827 3828 (2) Grade: The student must be in eighth grade or above during the school year of 3829 enrollment. 3830 3831 (3) Academic standing: The student must maintain an acceptable standard of 3832 academic achievement and standing as required by JROTC and the school. 3833 3834 (4) Conduct and character: Cadets must maintain an acceptable standard of conduct. Cadets in leadership positions are expected to demonstrate high personal 3835 standards to set the example. Instructors may remove Cadets who fail to meet 3836 3837 standards from leadership positions. 3838 3839 (5) Physical condition: The student must be able to participate in the physical 3840 education program in the school. Students enrolled in an adaptive physical education program may participate. However, the school will provide any special equipment or 3841 3842 additional instructors that may be needed to instruct these students at no cost to the 3843 government. The school must also work with the instructor to ensure these students do 3844 not disrupt the presentation of the JROTC curriculum. 3845 3846 (6) JROTC Uniform: The Cadet must agree to wear the Army JROTC uniform IAW school/district policy. 3847 3848 3849 (7) Automated record: The unit will maintain an automated record for each Cadet 3850 in the JROTC Unit Management System (JUMS) and archive it for a period of five years 3851 after leaving the program. 3852 3853 (8) Instructors may enroll students previously denied enrollment or disenrolled 3854 from JROTC, if the student corrected the problems or deficiencies that previously 3855 caused non-acceptance or disenrollent, as long as they otherwise qualify. 3856

3857 7-3. Magnet Cadets

3858 a. Magnet Cadets are Cadets attending a school without an Army JROTC program who are authorized to enroll in a full-time regular JROTC course at a host school IAW 3859 3860 school/district policy. Magnet Cadets fall into one of the following categories: 3861 3862 (1) Feeder Schools (See paragraph 3-21) 3863 3864 (2) Cross-Enrollment (See paragraph 3-22) 3865 3866 (3) Home School (See https://www.usarmyjrotc.com/library) 3867 3868 b. Magnet Cadets must be transported to host school at no cost to the government. 3869 JROTC instructors are not authorized to travel to other schools to provide instruction or 3870 to transport Magnet Cadets to the host school. Magnet Cadets must: 3871 3872 (1) Be enrolled in and attending full-time, an accredited educational activity, which 3873 does not have a JROTC unit. 3874 3875 (2) Meet the other prescribed enrollment requirements of paragraph 7-2. 3876 3877 (3) Be willing to participate in the JROTC Program for Accreditation. 3878 3879 (4) Must receive a minimum of three hours of JROTC instruction per week. 3880 3881 (5) Must be included on all Opening Enrollment Reports. 3882 3883 7-4. Participating Students 3884 a. Participating students are students who are currently taking a JROTC class at the 3885 host school, but are unable to meet all enrollment requirements. Students are placed in 3886 a participating student status at the discretion of the SAI. 3887 3888 b. Participating students will not (except for participating students in accelerated 3889 block schedule schools): 3890 (1) Draw or wear uniforms and equipment. These students may participate in drill (but not in uniform) when it is part of class or leadership lab. 3891 3892 3893 (2) Participate in co-curricular activities. 3894 3895 c. The number of participating students will not exceed 2% of the unit. If the number 3896 of participating students exceeds 2% of the enrollment, the Brigade Commander must approve an Exception to Policy (ETP). 3897 3898

- 3899 d. Students who were denied enrollment or dis-enrolled (former JROTC Cadets) from
 3900 JROTC and have since corrected the problems or deficiencies causing their non acceptance or disenrollment, and who are otherwise qualified, may be enrolled in the
 3902 JROTC unit.
- 3903

e. Participating students will be annotated on the opening enrollment report under
that category. Participating students will not be used when calculating staffing
requirements or funding except for participating students in accelerated block schedule
schools.

3909 f. Students who are currently enrolled or have completed LET 1, who are unable to meet requirements may be listed as a participating student at the discretion of the SAI. 3910 A JROTC Cadet in an accelerated block schedule school will be considered a 3911 participating student when scheduling conflicts dictate skipped semesters (not taking 3912 3913 JROTC curriculum). Cadets may remain on teams and in leadership positions only if they are in an enrolled active status. The number of participating students will not 3914 exceed 2% of the unit without a waiver. Only eighth graders and above will receive LET 3915 3916 1 instruction. Principals and SAIs must work together to schedule participating students so they do not disrupt instruction. If a student's behavior distracts from the program, 3917 3918 school officials must support disenrollment.

- 3919
- 3920 Section II Cadet Actions

3921 7-5. Cadet Records and Training Certificates

a. Cadet records will be maintained in JUMS on each Cadet enrolled in JROTC
excluding PII, and for a period of five years after leaving JROTC.

b. Cadet training certificate may be provided to a Cadet after verification of
participation from the Cadet record.

- (1) SAI/AI will recommend advanced placement in the Senior ROTC program or in
 the Regular or Reserve Components of the Armed Forces on the JUMS "Cadet Record"
 in the "Notes" section of the "Cadet Detail" screen. SAI/AI will issue CC Form 134-R,
 Certificate of Training to each Cadet who successfully completes at least one year of
 JROTC.
- 3933

3934 (2) SAI/AI will provide each participating student, not enrolled as a Cadet, a
3935 certificate of participation and mark each Cadet as a participating student in the JUMS
3936 "Cadet Record" on the "Cadet Detail" screen.

3937 7-6. Protection of PII

3938 Cadets records will not be released to third parties without school and parental consent.3939

- 3940 7-7. Cadet Incentives
- 3941 a. Cadet merit/demerit system:
- 3943 (1) Utilizing JUMS, units will develop a merit/demerit system or a similar system to 3944 reinforce Cadet Standards.
- 3945

(2) The system will allow Cadets the opportunity to correct deficiencies and will
 recognize Cadets who excel. The system must be included in the unit SOP and made
 available for all Cadets.

- 39493950 b. Cadet promotion system:
- 3951

3958

(1) Utilizing JUMS, units will establish a fair and equitable promotion system, which
includes as much Cadet involvement as possible (e.g., Cadet Boards). Cadet rank
structure will include officers and NCOs. No JROTC unit will have only a NCO Structure.

3956 (2) The system must be included in the unit SOP and made available for all3957 Cadets.

3959 (3) Promotions and demotions will be announced on unit orders, made available3960 for all Cadets, and annotated in Cadet Records.

3961 7-8. Cadet Portfolios

3962 JROTC Cadets will create a portfolio that contains an organized collection of work 3963 based on accomplishments, personality, goals, and aspirations. The portfolio should provide insight and information on the Cadet's personal achievements and growth over 3964 3965 time. Instructors will ensure that all Cadets and participating students have a portfolio 3966 and will periodically discuss evidence of growth and improvement demonstrated in the 3967 portfolio. Instructors can require additional assignments that will tailor portfolios to 3968 address areas of concern to their school and the individual needs of the Cadet. The portfolio will begin with LET 1 Cadets upon entry to the JROTC program. Portfolios will 3969 3970 be maintained on all Cadets enrolled in the JROTC program for the duration of their 3971 JROTC career IAW CCR 145-8-3. Cadet Portfolio can be a digitized version on an 3972 approved JROTC system or paper copy based on the school's capabilities.

3973 **7-9. Cadet Awards**

a. Awards may be given to recognize distinguished, heroic, meritorious, and other

As a participating student, there is no 4305 requirement to wear the Army JROTC uniform. For schools without policy, USACC 4306 recommends defaulting to the male Cadet uniform as a gender neutral option. 4307 4308

may not wear religious items if they do not meet the standards of this regulation.
Requests for accommodation will not be entertained.

(2) Cadets may wear religious apparel, articles, or jewelry with the uniform, if they
are neat, conservative, and discreet. "Neat conservative, and discreet" is defined as
meeting the uniform criteria of this regulation. In other words, when religious jewelry is
worn, the uniform must meet the same standards of wear as if the religious jewelry were
not worn. For example, a religious item worn on a chain may not be visible when worn
with uniforms. The width of chains worn with religious items should be approximately
the same size as the width of the ID tag chain.

4360 (3) Ensure Cadets' religious rights are not infringed on for the sake of Cadet 4361 uniform standards.

Cadets are authorized to wear multiple neat-in-4387 appearance hairstyles at once. Colors that detract from a professional uniform 4388 appearance are prohibited. to good order and discipline within the unit, the school, and the community. If a Cadet
has a tattoo on the face, it will not prohibit the Cadet from participating in JROTC.
Instructors should advise that facial tattoos could prohibit the Cadet from joining the
Armed Forces.

Multiple awards of any ribbon or medal will be designated with a lamp device as 6179 follows: 2nd award, bronze lamp; 3rd award, silver lamp; 4th award, gold lamp; 5th 6180 award, one gold lamp and one bronze lamp; 6th award, one gold lamp and one silver 6181 lamp; 7th award, two gold lamps; and so on (In no case will more than one of the same 6182 ribbon, medal or medallion be worn).

6183

6184 **8-52. Marksmanship Medals and Ribbons**

a. Junior Excellence-in-Competition (EIC) badges and Junior Distinguished badges
awarded by the Civilian Marksmanship Program are authorized for general wear on
issue or Cadet-type uniforms.

6188

b. Other medals and ribbons with medal pendants awarded by the Civilian
Marksmanship Program, National Rifle Association, American Legion, USA Shooting, or
other organizations sponsoring marksmanship competitions may be worn on the
JROTC uniform; but only for special ceremonies and official functions as directed by the
DAI/SAI. They cannot be authorized for general wear.

6194

c. When Cadets enter the Army JROTC program from another service and have
ribbons from that service, SAI/AIs should do a cross-walk of each ribbon (example Air
Force Good Conduct) and replace them with the similar Army JROTC ribbon (Good
Conduct Ribbon). In some cases, they have a different name; however, instructors
should make every attempt to identify a similar ribbon.

6200

6201 8-53. Other Awards

Institutions, agencies, and military honor societies with established records of support
for JROTC units and military branches may present awards to Cadets. However, the
awards must be without expense to the government, the design must be approved by
TIOH, and the award and criteria used must be approved by Director, Army JROTC.

6206 Filing of corporate papers, constitution and bylaws, letters of agreement, or other 6207 documents may be required.

6208

6224

6225

6209 **8-54. Unit Awards**

a. General: An Honor Unit with Distinction (HUD) has demonstrated exceptional
performance in all areas of JROTC, as determined by the USACC and as
designated in permanent orders. Receiving such ratings is a reflection on both the unit
and the school.

b. Replacement: Streamers embroidered to show designation or years of awards
may be issued at government expense to replace unserviceable streamers, due to fair
wear and tear.

c. Description: Streamers are swallow-tailed and distinctive in color. The streamer will
be displayed attached to the pike or lance of the school colors right below the
spearhead. The streamer is an integral part of JROTC units. Dimensions are 2-3/4
inches wide and three feet long for display with school colors.

(1) Honor Unit with Distinction (HUD) colors:

(a) Military Institute (MI) colors will be dark yellow 3/8 inch, dark orange two
inches, and dark yellow 3/8 inch. The orange stripe is embroidered in dark yellow with
the inscription "Honor Unit with Distinction" followed by a star, both 1 1/4 inches high.
Dark yellow numerals, 1 1/4 inches high, will denote award year on the date streamer.

(b) High school JROTC colors will be dark yellow 3/8 inch, medium blue two
inches, and dark yellow 3/8 inch. The blue stripe is embroidered in dark yellow, with the
inscription "Honor Unit with Distinction" followed by a star, both 1 1/4 inches high. Dark
yellow numerals, 1 1/4 inches high will denote award year on the date streamer.

(c) NDCC colors will be medium blue 3/8 inch, dark yellow two inches, and
medium blue 3/8 inch. The yellow stripe is embroidered in medium blue with the
inscription "Honor Unit with Distinction" followed by a star, both 1 1/4 inches high. Dark
yellow numerals, 1 1/4 inches high will denote award year on the date streamer.

6241 Chapter 9 - JROTC Cadet Training

6242 Section I – General

6243 **9-1. Scope**

a. This chapter prescribes policies and provides definitive guidance for the planning,
execution, assessment, and standardization of JROTC Cadet training and training
management procedures. Additionally, it addresses who may participate in JROTC
training activities, and provides guidance and assigns responsibilities for the various

types of Cadet training, associated training activities, risk management, and safety as
they pertain to the planning, conduct, and assessment of Cadet training.

- 6251 b. The JROTC training program will consist of events that require Cadets to make a decision, perform a skill, perform a service, solve a problem, and/or create a product. 6252 While participation is not required of every Cadet, instructors should encourage every 6253 Cadet to participate in at least one JROTC or high school co-curricular activity. Because 6254 co-curricular activities are so important to the success of a JROTC program, each unit 6255 will have at least two co-curricular teams plus a color guard. Cadets participating in co-6256 curricular activities must have and maintain a minimum of a 2.0 grade point average. 6257 Sport physicals are mandatory for Raider Challenge and Cadet Challenge/National 6258 6259 Physical Fitness Competition.
- 6261 9-2. Training Events and Activities

6262	a. In this Chapter, guidance is provided for the following training events and activities:

6300 9-3. Safety and Risk Management

6299

6301 Training safety is a command responsibility and all supervisory personnel are 6302 responsible for assisting USACC by requiring strict adherence to established training 6303 safety guidance. With no exceptions, Cadets will have constant instructor supervision at all JROTC training activities. Units will teach Cadets how to recognize 6304 6305 safety hazards and how to properly implement risk management using DD Form 2977, Deliberate Risk Assessment Worksheet (DRAW). Instructors will encourage Cadets to 6306 participate in optional co-curricular activities, such as drill teams, raider teams, 6307 orienteering teams, and marksmanship teams. These activities have important 6308 6309 marketing and retention benefits, as well as training advantages for those Cadets who 6310 participate. 6311

6312 9-4. The JROTC Civilian Marksmanship and Safety Program

a. The Civilian Marksmanship Program (CMP) is a national organization dedicated to
training and educating U.S. citizens in responsible uses of firearms and air guns through
gun safety training, marksmanship training and competitions. It places its highest priority
on serving youth through gun safety and marksmanship activities that encourage
personal growth and building life skills. The military services have partnered with CMP
to conduct a quality and safe air rifle and marksmanship program for its JROTC units. It
supports the following objectives:

- 6321 (1) To instruct citizens of the United States in marksmanship.
 - (2) To promote practice and safety in the use of firearms.
- 6325 (3) To strengthen confidence and competence in the use of firearms through
 6326 participation in competitions and the award of trophies, prizes, badges, and other
 6327 insignia to competitors.
- b. The only authorized marksmanship training in JROTC is with the use of the air rifle
 and under the supervision of the JROTC instructors.

c. The requirements to establish a JROTC Civilian Marksmanship and Safety
Program are divided into four requirement categories: unit, instructor, Cadet and range
requirements. As a minimum, each unit with a program will follow the guidance as listed
below:

6336

6322 6323

(a) Unit requirements: The following documents must be maintained by the unitand must be present during formal or informal inspections.

• Units will adopt and implement the mandatory Standing Operating Procedures
(SOP) for JROTC Civilian Marksmanship and Safety Program. The adoption of the SOP
can be referenced in the Memorandum of Understanding (MOU) with the school or the
SAI can affirm that the SOP has been adopted and will be followed in all air rifle range
firing activities. A copy of the SOP should be available at the unit office or range at all
times (<u>https://www.usarmyjrotc.com/library</u>).

• Each unit will have a written MOU with the school regarding the conduct of air rifle marksmanship training for the use, access control and maintenance of an air rifle range. The MOU will outline the range requirements, the types of air rifles allowed and safety rules (<u>https://www.usarmyjrotc.com/library</u>).

6351

6352 • The initial air rifle range inspection must be conducted by a representative of the CMP (Master JROTC Marksmanship Instructor Course (MJMIC) graduates fit this 6353 6354 category). Before a JROTC unit may conduct air rifle marksmanship training, this inspection is the only acceptable way to establish initial range and air rifle 6355 marksmanship program requirements. Brigade will notify CMP when a unit is ready for 6356 its initial inspection. Units will not contact CMP to conduct an inspection without prior 6357 6358 approval from their Brigades. Subsequent annual range inspections will be conducted 6359 by a local MJMIC or as part of the Formal Inspection and Assist Visits conducted by Brigade personnel, utilizing the Range Inspection Checklist in CCR 145-8-3. If a unit 6360 6361 substantially changes a previously CMP-inspected and approved range, the changed range will require re-inspection by a trained CMP inspector before marksmanship 6362 6363 training can continue. The annual range inspection will be valid until the next scheduled 6364 Assistance Visit or Formal Inspection, but will not exceed 24 months between 6365 inspections. 6366

(b) Instructor requirements: All instructors assigned to a unit with an air rifle
marksmanship program must complete the following training prior to certification as an
air rifle coach or instructor:

6370

• Each instructor who will supervise air rifle range firing must have completed the distance learning JROTC Cadet Safety and Civilian Marksmanship Course. A certificate confirming course completion will be available and kept on file for inspectors. Review of this course is an annual requirement.

6375

Additionally, instructors who will supervise air rifle range firing will complete one
 of the following courses: the one-day JROTC Marksmanship Instructor Course, the two day CMP/NRA/USAS Coach Certification Course, or the two-day CMP Rifle Instructors
 Course. A course certificate of completion or coaching card must be available and kept

6380 on file for five years. After five years, each instructor must attend the recertification6381 course to remain active as an air rifle coach.

6382

6392

6383 (c) Cadet requirements: All JROTC Cadets who participate in air rifle marksmanship will complete Lesson 2/Unit 7 of the curriculum and pass the Cadet 6384 6385 examination with a score of 100%. A roster with the names of all Cadets who are 6386 "marksmanship qualified" will be maintained at the unit. The Cadet marksmanship roster 6387 should record that these Cadets received training in air rifle safety and range procedures, passed their marksmanship safety exam and signed individual safety 6388 6389 pledges. The safety pledge is an agreement between the Cadet and USACC to ensure 6390 that each Cadet understands the importance of marksmanship and the responsibilities 6391 as a participant.

(d) Range requirements: The unit's air rifle range must be capable of being
secured from the inside of the range, so that unauthorized persons cannot enter the
range area from the outside of the range during firing
(<u>https://www.usarmyjrotc.com/library</u>). "Range area" means the sides and downrange
area of the range. A range should be configured so that individuals may enter or exit
only at the rear of the range (area behind the firing line).

• The air rifle range must be located in an area where a pellet that does not strike the target backstop will not exit the range and impact in an area where other people may be present. Walls and a ceiling that can contain any pellet that misses the backstop must be present or the area around the range must not be accessible to other persons.

The range will have a clearly delineated firing line 10 meters (33 feet) from the
target backstops, with designated firing points, which allows the instructor to control the
locations and actions of Cadets on the range.

(2) Units meeting all the requirements except the range clearance can participate at
other ranges which meet the required specifications. Under no circumstance will a unit
fire at a range which does not meet the specifications as outlined above.

6412
6413 (3) JROTC instructors, as an employee of the school, may enter into an agreement
6414 with the school to serve as the small-bore marksmanship coach. However, the duties
6415 will in no way interfere with the execution of duties as a JROTC instructor. No small6416 bore training will be associated with JROTC. Instructors and students participating in
6417 small-bore training will not be in Army uniforms. The training is an agreement between
6418 the school and the individual.

6419

6408

(4) The SAI/AI maintains full responsibility for all air rifle instruction presented to
Cadets. A civilian assistant coach, approved by the school, may support the Army
JROTC Civilian Marksmanship and Safety Program. To supervise Cadets on a range,

6423 the assistant air rifle coach must meet USACC air rifle certification requirements and be 6424 certified by a NRA/USA Shooting/CMP two/three day certification program.

6425

(5) Competitive air rifle events with other organizations are authorized. Most
organizations other than JROTC will not meet the established requirements. It is
incumbent upon the range safety officer to determine if an outside organization can
meet the minimum safety requirements prior to allowing the organizations on the firing
range. The Range Safety Officer will conduct an in-depth safety briefing prior to firing
and each participant will sign the Cadet pledge to ensure a basic understanding of
range safety procedures.

6433

(6) The JROTC instructors always maintain proper supervisory controls for Cadets on
the air rifle range. The SAI/AI performing coach duties will not depart the range while air
rifle training is being conducted.

6437

6438 9-5. Drill and Ceremonies

Drill and Ceremonies is one of the key ingredients of the Army JROTC Program. Drill
will be conducted IAW current Army Training Circular 3-21.5, Drill and Ceremonies,
dated 3 May 2021, which is the Army standard for executing the Manual of Arms. This
category also includes Exhibition drill in accordance with brigade-published standards.
Teams may participate in Brigade-sponsored Drill competitions, in the Army National
Drill Team Championship competition, and All Service National Drill Team
Championship competition.

6446

6447 9-6. Raider Challenge

6448 a. Raider Challenge is a JROTC competition that tests skill, strength, stamina, and 6449 teamwork across a set of outdoor adventure tasks.

- 6450
- b. The competition normally consist of the following five events:

6452 (1) A physical team test comprised of negotiating obstacles, carrying equipment 6453 for short distances, and running a prescribed distance

- 6455 (2) A five-kilometer team run
- 6456

6454

6457 (3) A cross-country hill run called the gauntlet that can include obstacles such as 6458 walls, tunnels and tires

6459

6460 (4) A cross-country rescue in which teams carry a dummy-laden litter over and 6461 under obstacles

6463 (5) The building and crossing of a one-rope bridge across a water obstacle or 6464 similar structure.

- 6465
- (a) While conducting a one-rope bridge over water or over rough terrain, Cadets
 will wear an approved Cadet Command helmet and long trousers (gloves are optional).
- (b) Cadets may use a either a Swiss-seat or a rappelling harness while negotiatinga one-rope bridge.

c. Alternate events may be implemented based on environmental conditions and the
sponsoring command's authorization. Teams may participate in Brigade-sponsored
Raider Challenge competitions and in the National Raider Challenge Championship
competition. USACC is the sponsoring command for the National Raider Challenge
Championship.

6477

6478 9-7. JROTC Leadership and Academic Bowl (JLAB)

6479 The JROTC Leadership and Academic Bowl (JLAB) is a premier event and is our 6480 largest national high school leadership and academic competition. JROTC units may 6481 participate with two teams, an academic team and a leadership team. It is configured as 6482 a collegial/STEM event focused on improving SAT/ACT scores, increasing interest in college admissions, demonstrating academic and leadership strengths of JROTC 6483 programs, and boosting team and unit spirit. All Army JROTC units will participate in 6484 Level 1 of the competition with either an Academic or a Leadership team. Participation 6485 is recommended for first year Army JROTC units; however, all Army JROTC units must 6486 6487 participate in at least one of the competitions after their initial first year. Brigades will ensure maximum participation by units within their areas of operation. 6488

6489

6490 9-8. Physical Fitness

The overall goal of the fitness program is to improve Cadets' strength, cardiovascular endurance, and promote a healthy lifestyle. Units must conduct a physical fitness regimen that adequately prepares Cadets to meet the physical rigors of JCLC and other activities. JROTC instructors are expected to set the example by their own health and fitness. Instructors will participate in physical training with their Cadets; however, fitness training should be Cadet led, under the supervision of the instructor.

6497

6498 9-9. Cadet Challenge

- 6499 a. Cadet Challenge provides a means to:
- 6500 6501 (1) Develop a separate identifiable physical fitness component.
- 6502 6503
- (2) Build team spirit and unit esprit.

6504	
6505	(3) Publicize JROTC in the school and community.
6506	
6507	(4) Demonstrate individual fitness as an important element of personal growth and
6508	development.
6509	
6510	b. Scoring will be done on a percentile basis according to age and sex.
6511	
6512	c. Events: Cadet Challenge consists of the following events:
6513	
6514	(1) Curl-ups or partial curl-ups.
6515	
6516	(2) Pull-ups or right angle push-ups (or flexed-army hang, but only for National
6517	Physical Fitness Award).
6518	
6519	(3) V-sit reach or sit and reach.
6520	
6521	(4) One-mile run/walk.
6522	
6523	(5) Shuttle run.
6524	
6525	d. No alternate events are authorized.
6526	
6527	e. Competitions among units are encouraged, but not required.
6528	
6529	9-10. Rappel Training

a. Rappel training is a school activity approved by school officials. JROTC units are
allowed to conduct rappel training for JROTC Cadets and participating students only
upon the approval of the school district sponsoring the event. The approval authority for
rappelling events is the school district operating through their duly appointed
representatives. When utilizing JROTC purchased equipment, only JROTC personnel
(instructors and Cadets) may participate unless approved by Brigade.

6536

6540

b. As a moderate-risk training event, units must submit risk assessments
 (<u>https://www.usarmyjrotc.com/library</u>) and CONOPS to their Brigade for approval a
 minimum of thirty (30) days prior to the conduct of training.

c. JROTC Cadets may participate in rappel training conducted by rappel
 masters/trainers which are approved by USACC and Brigade. Range Control must
 approve rappelling operations on a military installation. Brigade must approve rappelling
 operations at all locations, e.g., Boy Scout camps, free-standing walls, cliffs, etc. The
 proponent of the rappel tower may conduct operations at the tower, but the JROTC

6546 current and certified rappel trainers are overall responsible for the conduct of all rappel 6547 operations. 6548 6549 d. Requirements: All personnel subject to this regulation will adhere to the following requirements while conducting rappelling operations: 6550 6551 6552 (1) Rappel training will be limited to basic, individual, and hip-seat rappels only. No Australian, free rappels, or extreme high risk rappelling is authorized. 6553 6554 6555 (2) Cadets will rappel with manufactured harnesses only, not Cadet-tied "Swiss 6556 Seats". 6557 (3) A "Figure 8" with a locking carabiner is the only authorized method of hooking 6558 6559 up. Wrapping the rope around a carabiner is unauthorized. 6560 6561 (4) While rappelling, cadre and Cadets will wear an approved Cadet Command 6562 helmet, harness, gloves, and trousers. Personnel performing belay duties will wear eye 6563 protection, helmets, and wear no gloves. 6564 6565 (5) Rappel training will be conducted on a surface, which includes buildings, 6566 established towers, or field sites which have been approved as a result of a safety 6567 inspection conducted by the school district's safety office, utilizing the TRADOC 6568 Rappelling Checklist (https://www.usarmyjrotc.com/library). Rappel site inspection is an 6569 annual requirement. 6570 6571 (6) All personnel on top of the tower will be secured by a safety rope or hooked up 6572 to the rappel rope at all times (unless there is a designated observation area that does not have access to any ledges or dangerous areas). The safety rope will not be 6573 removed until the rappel rope is hooked up and the rappeller's brake hand is in place. 6574 6575 6576 (7) Rappel training will be conducted by only properly trained personnel certified 6577 by Brigade to conduct such training. Properly trained personnel are defined as individuals who meet one the following criteria: (Note: Must be recertified every five 6578 6579 vears). 6580 6581 (a) An instructor approved in writing by their Brigade as a certified rappel master/trainer who has successfully completed Brigade certification. 6582 6583 6584 (b) Only certified rappel masters/trainers can set up the rappelling site, inspect equipment, "hook up" rappellers, and supervise their descent. 6585 6586 6587 e. Brigades will ensure that instructors are recertified on an annual basis. 6588

6589	f. Cadre will no longer conduct rappelling for visiting educators during their visits to
6590	JCLC or any non-JROTC Cadet except by approval of Brigade headquarters.
6591	
6592	g. Procedures: To ensure compliance with the above requirements, Brigades
6593	conducting rappel training will adhere to the following procedures:
6594	
6595	(1) Schedule instructors to attend approved Army school for rappel certification.
6596	
6597	(2) Identify all qualified rappel masters in the Brigade.
6598	
6599	(3) Maintain at least 25% of instructors who are certified as rappel masters from an
6600	Army school or those with special unit training.
6601	, , , , , , , , , , , , , , , , , , , ,
6602	(4) Develop a one-day training course, taught by rappel masters, to certify
6603	instructors as rappel trainers.
6604	
6605	(5) Schedule annual rappel trainer certification training.
6606	
6607	(6) Approve risk assessment for units desiring to conduct rappel training.
6608	
6609	(7) Maintain file copy of rappel master or rappel trainer certification, rappel training
6610	certification, and moderate-risk assessment.
6611	
6612	(8) Approve rappel master training certificate.
6613	
6614	h. Senior Army Instructor/Army Instructor will:
6615	
6616	(1) As a minimum, ensure that approved sites are inspected annually by
6617	competent safety or structural engineering professionals, to ensure that structures or
6618	sites have not degraded making them unsafe for use. A written record of the inspection
6619	will remain on file with the unit having operational control of the site. Additionally, a
6620	certified rappel master/trainer will inspect the site immediately prior to each use. Cadre
6621	must carefully monitor the site, equipment, and training procedures throughout each
6622	rappel training exercise. Skid or "helicopter-style" rappels are authorized only from a
6623	fixed tower (not from airborne helicopters). Australian or other advanced rappels are
6624	not authorized.
6625	
6626	(2) Submit a copy of the instructor's Rappel Master Certification Training
6627	Certificate or Rappel Trainer Certification Certificate (valid for five years) to higher
6628	headquarters. Individuals who are not rappel master certified may request training by
6629	submitting a memorandum to higher headquarters requesting rappel trainer certification
6630	training.
6631	

- 6632 (3) Complete a risk assessment and forward to Brigade for approval. (See
 6633 <u>https://www.usarmyjrotc.com/library</u>).
 6634
- 6635 (4) Maintain a file copy of both the annual safety inspection, the instructors rappel 6636 certification certificate, TRADOC Rappel Tower Inspection Checklist, and DRAW. 6637

(5) Prior to making their first rappel from a height of more than 10 feet, Cadets will
be required to rappel from a height of less than ten feet and/or on an incline. The
purpose of this preliminary rappel is to introduce new rappellers to proper position and
braking techniques and build their confidence accordingly in those techniques before
rappelling from a significant height.

6643

(6) To successfully operate each rappel lane from an approved tower, a certified
rappel trainer for each lane is required. All adults performing belaying for Cadets must
be thoroughly briefed by JROTC cadre certified to conduct rappelling. Every effort will
be made to have two certified rappel trainers to perform tower rappels.

6648

6649 9-11. Confidence and Team Building

6650 Units will conduct mentally and physically challenging events to develop Cadet's self-6651 confidence, teamwork, and ability to overcome fear. When conducted with appropriate 6652 risk assessment and management, events such as leaders' reaction course, obstacle or 6653 confidence courses, rope bridging, rappelling, and water safety are authorized training 6654 events.

6655

6656 9-12. Cadet Rides and Field Trips

6657 a. The intent of a Cadet ride is to involve Cadets in a formal analysis of a historical 6658 battle with emphasis on the leadership and decisions that determined the outcome, or 6659 the study of political symbols, events, or places of a historic nature. Traveling to a 6660 nearby battlefield or visiting a national site is preferred, but not required. Cadets are 6661 required to do some preliminary study and may be required to play some role or brief 6662 some segment in the exercise. 6663

- b. Units may actually travel to a battlefield, but must minimize costs. Generally, it
 should be possible to go and return from the site in one day by ground transportation.
 Military or commercial air travel for this purpose is prohibited. OMA funds may be used
 to contract or pay for curriculum-related tours and/or overnight lodging if funds are
 available and approved by Brigade. School funds or other funds raised by Cadets can
 be used for tours, meals and lodging, subject to school district policy.
- 6671 c. Units are encouraged to conduct this event at the school by using sand table 6672 exercises, board games of famous battles, or other simulations, which meet the intent 6673 when suitable battlefields are not available.

6674

6675 d. Field trips: DAI/SAI/AIs are encouraged to conduct field trips in support of 6676 educational objectives. Upon completion of field trips with a USAR/NG unit and/or on a 6677 military installation, DAI/SAI/AIs must submit an after-action report to Brigade.

6678

6679 9-13. Off-Campus/Installation Training

When units use off-campus/installation facilities (such as confidence courses, highropes or low-ropes courses, rope bridging sites, etc.), instructors will abide by this
regulation, and regulations and policies that would apply if the training were being done
on a military installation.

6684

6685 9-14. Archery Program

6686 Archery is authorized under close supervision of trained and certified professionals. All JROTC archery programs must be established under a nationally-recognized archery 6687 6688 training program and approved by Director, Army JROTC. The Army JROTC program is currently using National Archery in the Schools Program (NASP) as an established 6689 guideline for its archery program. Each school that is conducting an archery program, 6690 must have its SAI or AI certified to conduct archery training IAW NASP standards and 6691 regulatory guidelines. Compound bows no more than 20 lbs of draw are authorized; 6692 6693 however, the use of long bows and crossbows are prohibited. For additional information, 6694 refer to the JROTC website at https://www.usarmvirotc.com/library. 6695

Small Unmanned Aircraft System (sUAS) programs are authorized and must be
established IAW Federal Aviation Administration (FAA) Recreational Flyer and Modeler
Community-Based Organization guidelines, school principal approval, and parental
consent. Submersibles are also a part of the drone program. For additional information,

6702

6703 9-16. Robotics Program

Robotics programs are authorized and may be established by school principal approval.
All JROTC robotics programs should be established in partnership with appropriate
faculty member or industry professional. JROTC Robotics programs are encouraged to
register with VEX Robotics competitions. For additional information, refer to the JROTC
website at https://www.usarmyjrotc.com/library.

6709

6710 9-17. STEM Program

6711 STEM camps are conducted nationwide wherein Brigades host and participate in varied

6712 STEM events and competitions annually. This provides opportunities for Cadets to

6713 interact with university professors, undergraduate and graduate students as they

6714 explore numerous STEM-related projects such as Aeronautics, Rocketry, Robotics, and

6715 other STEM-related career fields with selected industries.

6716

6717 9-18. JROTC Cyberscience Program

a. Cyberscience focuses on computer programming, embedded systems, networks,
telecommunications, computer systems, computer investigations, and cyber operations.
It could also involve blending cyber engineering with cyberscience and ethics as well as
computer security, cybersecurity, and information technology.

6722

6723 b. Examples of cyberscience programs are CyberPatriot and CyberStart. 6724 CyberPatriot is the premier national high school cyber defense competition designed to 6725 excite, educate, and motivate the next generation of cyber defenders critical to our 6726 national security. The competition has a tournament-style structure with a series of webbased competition rounds, which culminate in the National Finals Competition annually. 6727 6728 The JROTC CyberStart program enables Cadets to discover the field of cyber-security 6729 through gamified learning wherein they work through progressively harder levels of realworld challenges. Along the way, they learn programming, cyber defense, forensics, 6730 and more, all through independent experiential learning that does not require the 6731 6732 instructor to play an active role beyond providing encouragement.

6733

c. The Army JROTC Cyber Program is an innovative, four-year, honors level cyber
program that is part of the Army's effort to infuse critical STEM curriculum in high
schools across the country. The Army JROTC Cyber Program provides students with
challenging, relevant experiences and prepares them to enter the cyber workforce,
pursue postsecondary studies, and/or enter military service. For additional information,

 and positions dictate.
- 7249

7250 9-33. Arrival and In-processing

JCLC S-1 (Cadre) will record Cadets and instructor arrival, and prepare unit assignment
per Brigade SOP. JCLC staff will be on hand to determine if the Cadet's appearance
meets the grooming standards per paragraph 8-6 of this regulation that covers
grooming standards and Brigade SOP. Cadets not meeting standards are given the
opportunity to correct deficiencies or coordination will be made for the Cadet to be
returned to his/her home.

7257 7258 **9**-

9-34. Required Forms

- a. Properly signed Contract of Release and Waiver of Liability Form from Cadets in
 attendance. (See <u>https://www.usarmyjrotc.com/library</u>)
- b. A roster attesting to the physical ability of each Cadet to participate in all training
 activities of the JCLC.
- c. A roster of Cadets requiring prescription medication, type of medication, frequency
 of use, and required dosage.
- d. Signed medical clearance from a licensed physician for those with unusual medical
 conditions as specified in paragraph 9-31d.

7276

7271

- b. School cadre must be aware of any over-the-counter and prescribed medications
 that must be taken by their Cadets during the course of JCLC and be knowledgeable of
 the correct dosage and method of ingestion. The name of any Cadet requiring such
 medication, and the type of medication must be given to the designated medical
 representative during in-processing.
- c. Over-the-counter drugs may be administered in accordance with school districtpolicy as established by JCLC SOP.
- 7285

7286 9-36. Insurance

The JCLC commandant ensures all Cadets have medical insurance for the duration of
the JCLC. Blanket JCLC insurance policies are the most preferred method. Use of OMA
funds to purchase insurance is unauthorized.

7291 9-37. Dental Policy

The SAI must ensure that sufficient updated data is available in the instructor's and
Cadet's dental records to aid forensic identification prior to participating in military
aircraft transportation.

7295

7290

7296 9-38. Instructor Billeting

a. For command and control purposes, the JCLC S-1 and S-4 will identify billeting
areas for instructors in close proximity to the Cadets. Instructors should billet in similar
living conditions as the Cadets.

7300 7301

7302

b. Only female instructors or female chaperones will billet with female Cadets.

7303 9-39. Instructor Travel and Billeting Reimbursement Procedures

7304 a. Typically, instructors receive rations and quarters at Government expense.7305

b. JCLC advanced party personnel will receive full per diem for a predetermined time(up to three days before and three days after JCLC).

7308

7309 9-40. Out-processing

7310 7311 a. Out-processing will be accomplished by cadre members from each school.

b. Individual Cadets will be released to their school representatives after their billets
have been cleaned and cleared. Schools will be released after billets have been
cleaned, Cadets have been accounted for, and equipment has been turned into the
JCLC S-4.

7316

c. After school representatives have accounted for all of their Cadets' equipment, the
equipment will be turned-in to the S-4.

- d. School representatives may be required to pay for any items not turned in by their Cadets before departing JCLC.
- 7322

7323 9-41. Early Dismissal from JCLC

a. A Cadet may be required to leave JCLC early for a variety of reasons. It is the sole
responsibility of the school representative to make whatever arrangements are
necessary to affect prompt transportation of the Cadet from JCLC to home.

7327 7328 7329 7330 7331 7331	b. The following is a list that does not include all offenses considered to be a major infraction of good order and discipline, but it outlines reasons for dismissing Cadets from JCLC:
7332 7333 7334 7335	(1) Consumption of or possession of alcoholic beverages, tobacco products (including Juul, vapes and e-cigarettes), drugs or medication not specifically prescribed for the Cadet.
7336 7337	(2) Possession of ammunition of any type.
7338 7339	(3) Unauthorized absence, including bed check.
7340 7341	(4) Willful disobedience of authorized orders.
7342 7343	(5) Fighting (including disruptive verbal altercations).
7344 7345	(6) Possession of weapons of any type other than those specifically issued for training purposes.
7346 7347 7348	(7) Shoplifting (including larceny or burglary of any type).
7349 7350	(8) Failure to adhere to uniform and hair standards.
7351 7352	(9) Bullying, hazing, or continual use of profanity toward other participants.
7353 7354	(10) Sexual harassment or assault of other participants.
7355 7356 7357 7358	c. Enforcement of the dismissal rule will be at the discretion of the JCLC commandant. The SAI/AI from the school will be responsible for the Cadet's return to his or her home.
7359 7360 7361 7362	d. No Cadet will depart JCLC without the JCLC commandant's authorization. It is the responsibility of the cadre company commander/TAC as well as the JCLC S-1 and the school representative to inform the commandant of departing Cadets.
7363	9-42. Safety Management
7364 7365	a. Cadet safety is different from Active Army Soldiers because:
7366 7367 7368 7369 7370 7371	(1) Typical Cadets are 15-17 years of age, with most just having completed the 9th or 10th grade. They are in the physical and psychological development stage between childhood and adulthood. Many are overly sensitive to peer pressure and adult influence. Some Cadets will fear failure and embarrassment; while others, due to a lack of experience, will be fearless.

- (2) Since Cadets are not required to pass a physical examination, their state of
 physical/mental/emotional health is unknown. Unlike Soldiers, the medically unqualified
 are not eliminated.
- (3) All are minors and for the most part, subject to parental bonds, attitudes, and
 values. The instructor is responsible for the care, control, and constant supervision of
 Cadets at all JROTC-sponsored activities.
- (4) All instructors must assure that Cadets freely participate in the various
 activities, without undue peer/adult pressure and without fear of embarrassment or
 failure. Cadre must not coerce a Cadet into doing something that they are not mentally,
 emotionally or physically prepared to do.
- (5) To enhance risk management, Cadets may also wear reflective outer garments
 and/or equipment during PT or other training when the uniform is not worn. Risk
 management for all training is conducted daily and updated as conditions change. **USACC does not conduct above medium-risk training.** Training events with medium
 residual risk must be approved by the Brigade. "Special Hazard" training sites (rappel
 towers, confidence courses, high ropes courses, etc.) must be inspected and certified
 as structurally sound and safe for training.
- (6) Training safety is extremely important. To ensure Cadet safety, instructors
 must manage risk before, during, and after training. Instructors will review and become
 familiar with the five steps of risk management and complete and maintain DD Form
 2977, Deliberate Risk Assessment Worksheets. See
- <u>https://www.usarmyjrotc.com/library</u> for forms and instructions. CCR 385-10, Chapter 4,
 presents a more detailed explanation of the risk management process. The five-step
 process is as follows:
- (a) Identify hazards: Identify hazards inherent in the training (such as a fall during
 rappelling) and hazards from other factors, such as the weather.
- (b) Assess hazards: Determine the worst injury possible, and the likelihood it
 would occur. The instructor, designated trainer or event supervisor will conduct the
 assessment and maintain a record of the assessment.
- 7408 (c) Develop controls and risk decisions.7409

7375

- (d) Implement controls: Implement all measures possible to reduce risks to the
 lowest level before training starts.
- (e) Supervise: Ensure all control measures are in force during the entire training
 event.
- 7416d. In the event of accident or injury, instructors will conduct an immediate assessment7417of the training accident to determine causes and identify trends. Instructors will either

take immediate corrective action or suspend the training until appropriate correctiveaction can be determined and implemented.

7420

e. Serious incidents/accidents/injuries must be reported as required by directivescontained in paragraph 2-3.

8220	C-23. Miscellaneous respiratory disorders
8221	

- a. Asthma is a clinical syndrome characterized by cough, wheeze, or dyspnea and
 physiologic evidence of reversible airflow obstruction or airway hyperactivity that
 persists over a prolonged period of time (generally more than 6 to 12 months).
- b. Reversible airflow obstruction is defined as more than 15 percent increase in FEVI
 following the administration of an inhaled bronchodilator or prolonged corticosteroid
 therapy.
- c. Increased bronchial responsiveness is the presence of an exaggerated decrease
 in airflow induced by a standard bronchoprovocation challenge such as methacholine
 inhalation (PD20 FEV1 less than or equal to 4mg/ml). Demonstration of exercise
 induced bronchospasm (15 percent decline in FEV1) is also diagnostic of increased
 bronchial responsiveness; however, failure to induce bronchospasm with exercise does
 not rule out the diagnosis of asthma. Bronchoprovacation or exercise testing should be
 performed by a credentialed provider privileged to perform the procedures.
- 8237
 8238 d. Acute, self limited, reversible airflow obstruction and airway hyperactivity can be
 8239 caused by upper respiratory infections and inhalation of irritant gases or pollutants. This
 8240 should not be permanently diagnosed as asthma unless significant symptoms or airflow
 8241 abnormalities persist for more than 12 months.

 8255 liquids, require frequent dilatation and hospitalization, and cause difficulty in maintaining
 8256 weight and nutrition.

Weight Checks:

a. The member's weight will be measured with shoes off and may be weighed in any military uniform.

b. The member may remove contents of pockets and any extraneous equipment (tools, keys, etc.) or outer clothing (coats, jackets, etc.).

- c. The member should stand still while on the scale.

d. Measurement should be read with the measurer directly in front or behind the scale if possible. Reading the scale from either side rather than straight-on reduces accuracy.

e. Subtract 5 pounds for clothing for men and women.

8839	f. Weight will be recorded to the nearest quarter pound.

8860	Standard Methods for Determining Body Fat Using Body Circumferences, Height
8861	and Weight
8862	
8863	D–1. Introduction
8864	
8865	a. The procedures for the measurements of height, weight, and specific body
8866	circumferences for the estimation of body fat are described in this appendix.
8867	
8868	b. Although circumferences may be looked upon by untrained personnel as easy
8869	measures, they can give erroneous results if proper precautions are not followed. The
8870	individual taking the measurements must have a thorough understanding of the
8871	appropriate body landmarks and measurement techniques. The individual(s) should
8872	have hands-on training and read the instructions regarding technique and location, and
8873	practice before official determinations are made. Preferably, two people should be
8874	utilized in the taking of measurements, one to place the tape measure and determine
8875	measurements, the other to assure proper placement and tension of the tape, as well as
8876	to record the measurement on the worksheet. The individual taking the measurements
8877	should be of the same sex as the instructor being measured; the individual who assists
8878	the measurer and does the recording may be of either sex. The two should work with
8879	the instructor between them so the tape is clearly visible from all sides. Measurements
8880	will be made three times, in accordance with standard body measurement procedures.
8881	This is necessary for reliability purposes, since the greater number of measurements,
8882	
	The lesser the standard of deviation also it only two measurements were taken there
8883	the lesser the standard of deviation. Also, if only two measurements were taken, there would be no way to tell which measurement was the most accurate. If there is greater
8883	would be no way to tell which measurement was the most accurate. If there is greater

than 1/2-inch difference between the measurements, then continue measuring until you
have three measurements within 1/2-inch of each other. An average of the scores that
are within 1/2-inch of each other will be used.

c. When measuring circumferences, compression of the soft tissue is a problem that
requires constant attention. The tape will be applied so that it makes contact with the
skin and conforms to the body surface being measured. It should not compress the
underlying soft tissues. All measurements are made in the horizontal plane, (i.e.,
parallel to the floor), unless indicated otherwise.

8893

8894 d. The tape measure should be made of a non-stretchable material, preferably 8895 fiberglass; cloth or steel tapes are unacceptable. Cloth measuring tapes will stretch with 8896 usage and most steel tapes do not conform to body surfaces. The tape measure should be calibrated, i.e., compared with a yardstick or a metal ruler to ensure validity. This is 8897 done by aligning the fiberglass tape measure with the quarter inch markings on the 8898 ruler. The markings should match those on the ruler; if not, do not use that tape 8899 measure. The tape should be 1/4 to 1/2-inch wide (not exceeding 1/2-inch) and a 8900 8901 minimum of 5-6 feet in length. A retractable fiberglass tape is the best type for 8902 measuring all areas. 8903

8904 **D–2. Height and Weight Measurements** 8905

a. The height will be measured with the instructor, in stocking feet (without shoes), standing on a flat surface with the head held horizontal, looking directly forward with the line of vision horizontal, and the chin parallel to the floor. The body should be straight but not rigid, similar to the position of attention. Unlike the screening table weight this measurement will be recorded to the nearest 1/2-inch in order to gather a more accurate description of the instructor's physical characteristics.

8912

b. The weight will be measured with the instructor in Class "B" uniform. Shoes will not
be worn. The measurement should be made on calibrated scales and recorded to the
nearest pound with the following guidelines:

- (1) If the weight fraction of the instructor is less than 1/2-pound, round down tothe nearest pound.
- 8919

8920 (2) If the weight fraction of the instructor is 1/2-pound or greater, round up to the 8921 next whole pound.

8922 8923 D–3. Description of Circumference Sites, and Their Anatomical Landmarks and 8924 Technique

8925

a. All circumference measurements will be taken three times and recorded to the nearest 1/2 inch (or 0.50). Each sequential measurement should be within 1/2-inch of the next or previous measurement. If the measurements are within 1/2-inch of each other, derive a mathematical average to the nearest half (1/2) of an inch. If the 8930 measurements differ by 1/2-inch or more continue measurements until you obtain three 8931 measures within 1/2-inch of each other. Then average the three closest measures.

8932

8933 b. Each set of measurements will be completed sequentially to discourage assumption of repeated measurement readings. For males, complete one set of abdomen and neck 8934 measurements, NOT three abdomen circumferences followed by three neck 8935 8936 circumferences. Continue the process by measuring the abdomen and neck in series until you have three sets of measurements. For females, complete one set of neck, 8937 waist (abdomen), and hip measurements, **NOT** three neck followed by three waist 8938 8939 (abdomen), and so on. Continue the process by measuring neck, waist (abdomen), and hip series until you have three sets of measurements. 8940

8941

8947

8948

8949

c. Instructions for computing body fat are at D–7 (males) and D–8 (females). A blank copy of DA Forms 5500–R and 5501–R is located at figure D–5 and figure D–6. These forms will be reproduced locally on 8 $1/2 \times 11$ -inch paper. Percent fat estimates are shown in figure D–1 (males) and figure D–2 (females).

d. Illustrations of each tape measurement are at figure D–3 (males) and figure D–4 (females).

8950 **D–4. Circumference Sites and Landmarks for Males** 8951

8952 a. Abdomen: The instructor being measured will stand with arms relaxed. The abdominal measurement is taken at a level coinciding with the midpoint of the navel 8953 (belly button) with the tape placed so that it is level all the way around the instructor 8954 being measured. Record the measurement at the end of a normal expiration. It is 8955 important that the instructor does not attempt to hold his abdomen in, thus resulting in a 8956 smaller measurement. Also the tape must be kept level across the abdomen and back. 8957 Measure the abdominal circumference to the nearest 1/2 inch and round down to the 8958 8959 nearest 1/2 inch.

8960

8961 b. Neck: The instructor being measured will stand, looking straight ahead, chin parallel 8962 to the floor. The measurement is taken by placing the tape around the neck at a level just below the larynx (Adam's apple). Do not place the tape measure over the Adam's 8963 8964 apple. The tape will be as close to horizontal (the tape line in the front of the neck should be at the same height as the tape line in the back of the neck) as anatomically 8965 feasible. In many cases the tape will slant down toward the front of the neck. Therefore, 8966 8967 care should be taken so as not to involve the shoulder/ neck muscles (trapezius) in the 8968 measurement. This is a possibility when an instructor has a short neck. Measure the neck circumference to the nearest 1/2 inch and round up to the nearest 1/2 inch. 8969

8970

8971 **D–5. Circumference Sites and Landmarks for Females** 8972

- a. Neck: This procedure is the same as for males.
- 8974

b. Waist: Measure the natural waist circumference, against the skin at the point of
minimal abdominal circumference, usually located about halfway between the navel and
the lower end of the sternum (breast bone). When you cannot easily see this site, take
several measurements at probable sites and use the smallest value. Be sure the tape is
level and parallel to the floor. The arms must be at the sides. Take measurements at the
end of the normal relaxed exhalation. Round the natural waist measurement down to
the nearest 1/2 inch.

8982

c. Hip: The instructor taking the measurement will view the person being measured
from the side. Place the tape around the hips so that it passes over the greatest
protrusion of the gluteal muscles (buttocks) keeping the tape in a horizontal plane (i.e.,
parallel to the floor). Check front to back and side to side to be sure the tape is level to
the floor on all sides before the measurements are recorded. Round hip measurements
down to the nearest 1/2 inch.

8989

8990 **D–6. Preparation of the Body Fat Content Worksheets** 8991

a. The following paragraphs will provide information needed to prepare the Body Fat Content Worksheets for males and females, DA Form 5500 and 5501. The worksheets are written in a stepwise fashion. The measurements and computation processes are different for males and females.

b. Before you start, you should have a thorough understanding of the measurements
to be made as outlined in this appendix. You will also need a scale for measuring body
weight, a height measuring device, and a measuring tape (see specifications in
paragraph D–1d) for the circumference measurements.

9002 **D–7. Steps for Preparing the Male Body Fat Content Worksheet, DA Form 5500** 9003

9004 <u>Name</u>: Print the instructor's last name, first name, and middle initial in the NAME block.
9005 Also include his Rank.
9006

9007 <u>Age</u>: Print his age in years in the AGE block. 9008

9009 <u>Height</u>: Measure the instructor's height as described in this appendix, to the nearest 1/2 9010 inch, and record the measurement in the HEIGHT block. 9011

- 9012 <u>Weight</u>: Measure the instructor's weight as described in this appendix, to the nearest pound, and record in the WEIGHT block.
- 9014
- 9015 <u>Note</u>: Follow the rules for rounding of height and weight measurements as described
 9016 earlier in this appendix.
 9017

9018 Step 1. Neck Measurement

- 9019 Measure the instructor's neck circumference to the nearest 1/2 inch and round up to the
- 9020 nearest 1/2 inch, and record in the block labeled "FIRST."

9022 Step 2. Abdominal Measurement

- 9023 Measure the instructor's abdominal circumference to the nearest 1/2 inch and round 9024 down to the nearest 1/2 inch, and record in the block labeled "FIRST."
- 9025

9026 Note: REPEAT STEPS 1 and 2, in series until you have completed three sets of neck9027 and abdomen circumferences.

9028

9033

9029 Step 3. Average Neck Measurement

9030 Find the mathematical average of your FIRST, SECOND, and THIRD neck
9031 circumferences by adding them together and dividing by three. Place this number to the
9032 nearest 1/2 inch in the block marked AVERAGE, for STEPS 1 and 3.

9034 Step 4. Average Abdominal Measurement

9035 Find the mathematical average of the FIRST, SECOND, and THIRD abdominal 9036 circumferences by adding them together and dividing by three. Place this number to the 9037 nearest 1/2 inch, in the block marked AVERAGE, for STEPS 2 and 4.

9038

9039 **Step 5.** Circumference value = abdomen circumference (STEP 4) minus neck 9040 circumference (STEP 3). Subtract STEP 4 from STEP 3 and enter result in STEP 5.

9041

9042 Step 6. Height Factor

9043 Enter the height in inches to the nearest 1/2 inch. 9044

9045 Step 7. Percent Body Fat

9046 Determine the percent body fat by finding the instructor's circumference value (value 9047 listed in STEP 5) and height in inches (value listed in STEP 6). The percent body fat is 9048 the value that intercepts with circumference value and height in inches. This is the 9049 instructor's PERCENT BODY FAT. 9050

9256 9257

9258 <u>Name:</u> Print the instructor's last name, and middle initial in the NAME block. Also
9259 include her Rank.
9260

- 9261 **Age:** Print her age in years in the AGE block.
- 9263 <u>**Height:**</u> Measure the instructor's height as described in this appendix, to the nearest 9264 half of an inch, and record the measurement in the HEIGHT block.
- 9265

9262

9266 <u>Weight:</u> Measure the instructor's weight as described in this appendix, to the nearest
 9267 pound, and record in the WEIGHT block.
 9268

9269 <u>Note:</u> Follow the rounding rules for rounding height and weight measurements as described earlier in this appendix.

9272 Step 1. Neck Measurement

- 9273 Measure the instructor's neck circumference to the nearest 1/2 inch, and record in the 9274 block labeled "FIRST."
- 9275

9271

9276 Step 2. Waist (abdomen) Measurement

- 9277 Measure the instructor's waist (abdomen) at the point of minimal abdominal 9278 circumference. Round the natural waist measurement down to nearest 1/2 inch and 9279 record in the block labeled "FIRST."
- 9280

9281 Step 3. Hip Measurement

- 9282 Measure the instructor's hip circumference down to the nearest 1/2 inch and record in 9283 the block labeled "FIRST."
- 9284

9285 Note: Repeat STEPS 1, 2, and 3 in series until you have completed three sets of neck,
9286 waist (abdomen), and hip circumference measurements. Find mathematical average of
9287 FIRST, SECOND, and THIRD circumference in STEPS 1, 2, and 3 by adding them
9288 together and dividing by three for each step. Place this number to nearest 1/2 inch in
9289 block marked AVERAGE for each step.
9290

- 9291 Step 4. Calculations

9293 Line A. Waist (abdomen) circumference.

- 9294 Enter value from STEP 2 in line 4A.

9296 Line B. Hip circumference.

- 9297 Enter value from STEP 3 in line 4B.
- 9298
- 9299 Line C. Total (4A+4B=4C).

- Add waist circumference (line 4A) and hip circumference (line 4B). Enter result in line4C.
- 9301
- 9303 Line D. Neck circumference.
- 9304 Enter value from STEP 1 in line 4D.
- 9305

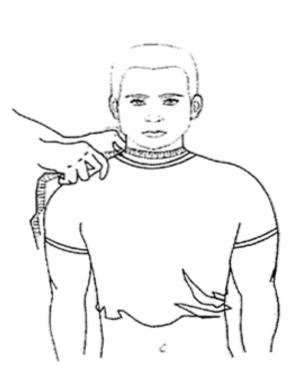

9306 Line E. Circumference value (4C-4D=4E).

- 9307 Subtract value in line 4C from value in line 4D. Enter result in line 4E. 9308
- 9309 Line F. Enter the height in inches to the nearest half inch in line 4F.
- 9310
- 9311 **Note:** Follow the rules for rounding of height and weight measurements as described 9312 earlier in this appendix.
- 9313

9314 Line G. Percent Body Fat

- 9315 Determine percent body fat by finding instructor's circumference value (value listed in 9316 line 4E) and height in inches (line 4F) in figure D–2. Percent body fat is the value that 9317 intercepts with circumference value and height in inches as listed in figure D–2. This is 9318 the instructor's PERCENT BODY FAT.
- 9318 the instructor's PERCENT BOD 9319
- 9320 Note: Go to figure D–2 to locate the circumference value in the left-hand column.

9350 APPENDIX F – Air Rifle Marksmanship Qualification Badges

9351	
9352	
9353	Marksmanship Qualification Badges: JROTC Cadets who participate in rifle
9354	marksmanship instruction are eligible to earn qualification badges. The badges
9355	designate three qualification levels, Marksman, Sharpshooter and Expert. The Expert
9356	badge is the highest ranking and most difficult to earn. The badges signify that the
9357	Cadets who earn them have demonstrated the knowledge and skill to handle rifles
9358	safety and have mastered basic rifle marksmanship skills to achieve required scores in
9359	qualification firing tests. JROTC Cadets are authorized to wear marksmanship
9360	qualification badges on their Class "A" or Class "B" uniforms. Cadets may earn more
9361	than one badge, but may only wear the highest-ranking badge earned.
9362	than one badge, but may only wear the highest-fanking badge carried.
9363	Qualification Course Standards: The following standards apply to the conduct of unit
9364	qualification firing:
9365	qualification ming.
9366	a. Rifles: Air rifle qualification firing must be done with sporter-class air rifles such as
9367	the Crossman challenger series rifles that were issued through the military supply
9368	system.
9369	System.
9370	b. Distance: Air rifle qualification firing must be done at a distance of 10 meters (33
9371	feet).
9372	
9373	c. Targets: Air rifle qualification firing may be done on either the Basic Marksmanship
9374	Course (BMC) or AR-1 competition targets.
9375	
9376	d. Clothing and Equipment: During qualification firing, a sling may be used in the prone
9377	and kneeling positions, a glove may be worn on the support hand in any position and a
9378	kneeling roll may be used in the kneeling position. Shooting jackets cannot be worn
9379	when qualifying with the air rifle.
9380	
9381	Integration with JROTC Marksmanship Curriculum: Cadets must receive
9382	marksmanship instruction before they do qualification firing. These marksmanship
9383	qualification standards and procedures are designed for qualification firing to be done in
9384	conjunction with the teaching of Unit 5 in the Army JROTC Leadership Education &
9385	Training curriculum. Qualification firing may be done in stages that are coordinated with
9386	completing these lessons in Unit 5:
9387
